Proposal for a  
COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration  
of a Community tariff quota for fresh or dried hazelnuts,  
shelled or otherwise, falling within subheading ex 08.05 G  
of the Common Customs Tariff, originating in Turkey

(submitted to the Council by the Commission)

COM(77) 84 final.

Explanatory memorandum

1. Article 5(1) of Council Regulation (EEC) No .../77 of 1977 on imports into the Community of certain agricultural products originating in Turkey<sup>1</sup>, which will probably enter into force on 1 May 1977, provides for the opening, for fresh or dried hazelnuts, shelled or otherwise, falling within subheading ex 08.05 G of the Common Customs Tariff, originating in Turkey, of an annual Community quota of 25 000 tonnes at a duty of 2.5%. Paragraph 2 of the said Article also stipulates that the pro rata temporis clause is applicable if the quota is not opened for a whole year.

Under Article 2 of the Interim Agreement concluded pending the entry into force of the Additional Protocol signed at Ankara on 30 June 1973<sup>2</sup>, the reduction to be applied under the tariff quota in question by the new Member States must be limited to the reduction granted by the latter vis-à-vis the Community as originally constituted.

2. The purpose of this proposal is to open the quota in question for 1977 as stipulated above, and to replace Regulation (EEC) No 3055/76 of 9 December 1976<sup>3</sup> on the quota of 21 700 tonnes opened for these products.

3. The provisions which it contains (quota rights, amounts of instalments, allocation among the Member States, the procedures for drawing quota shares from and returning unused portions to the reserve, the threshold for returning unused portions to the reserve and the method of administration) are identical to those adopted in Regulation (EEC) No 3055/76. The raising of the quota volume from 21 700 to 25 000 tonnes and the repeal of Regulation (EEC) No 3055/76 has necessitated certain changes in the enacting terms and in

particular the obligation to deduct the quantities charged under the initial Regulation from the new quota shares and from the new Community reserve.

In addition, in order to facilitate the checks which the Commission must effect under the treaties, Article 10 of the proposal requires Member States to forward to the Commission within a certain period determined by the Commission a copy or photocopy of the provisions which they have made concerning this tariff measure.

Proposal for  
COUNCIL REGULATION (EEC)

opening, allocating and providing for the administration of a Community tariff quota for fresh or dried hazelnuts, shelled or otherwise, falling within subheading ex 08.05 G of the Common Customs Tariff, originating in Turkey

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Articles 43 and 113 thereof,

Having regard to the proposal from the Commission,

Having regard to the opinion of the European Parliament,

Whereas Article 5(1) of Council Regulation (EEC) No .../77 of 1977 on imports into the Community of certain agricultural products originating in Turkey<sup>1</sup>, which enters into force on 1 May 1977, provides for the opening by the Community of a Community tariff quota of 25 000 tonnes at a duty rate of 2.5% for fresh or dried hazelnuts, shelled or otherwise, falling within subheading ex 08.05 G of the Common Customs Tariff, originating in Turkey; whereas under paragraph 2 of the said Article, the pro rata temporis clause is applicable; whereas by its Regulation (EEC) No 3055/76<sup>2</sup>, the Council opened and allocated among the Member States, for 1977, for the products in question originating in Turkey, a Community tariff quota of 21 700 tonnes at a duty rate of 2.5%; whereas, for the period from 1 May to 31 December 1977, the volume of the tariff quota is fixed at 23 900 tonnes; whereas, with regard to the customs duty applicable in the new Member States, it should be noted that Article 2 of the Interim Agreement concluded pending the entry into force of the Additional Protocol signed at Ankara on 30 June 1973<sup>3</sup>,

lays down that the reductions in customs duties which are provided pursuant to the Association Agreement shall be applicable in the new Member States in accordance with the percentages and timetable laid down, upon the entry into force of that Agreement; whereas the rates to which the new Member States shall apply those reductions shall be those which they apply at any given moment to non-member countries

and whereas that the rates fixed as a result of the reductions regarding the products listed, in particular, in Annex 6 to the Additional Protocol — and which include hazelnuts — may in no case be lower than those applied by the new Member States with reference to the Community as originally constituted; whereas the reduction to be applied by the new Member States within the framework of the tariff quota under consideration must therefore, in certain cases, be limited to 80%;

whereas, consequently, the tariff quota in question should be opened as laid down above for 1977 and provision should be made for charging against this quota the quantities imported from 1 January to 30 April 1977 and charged to the quota opened by Regulation (EEC) No 3055/76.

Whereas it is in particular necessary to guarantee all importers of the Member States equal and uninterrupted access to the said quota and uninterrupted application of the rate laid down for that quota to all imports of the products concerned into the Member States until the quota has been used up; whereas having regard to the above principles, the Community nature of the quota can be respected by allocating the Community tariff quota among the Member States; whereas, to reflect most accurately the actual development of the market in the products concerned, such allocation should be in proportion to the needs of the Member States, assessed by reference both to the statistics relating to imports from Turkey over a representative period, and to the economic outlook for the quota period concerned;

Whereas, on the basis of the statistics at present available, imports into the Member States in 1973, 1974 and 1975 of the product concerned originating in Turkey have developed as follows and represent the following percentages of total imports into the Community:

.../...

	1973		1974		1975	
	tonnes	%	tonnes	%	tonnes	%
Germany	39 133	70.16	34 515	64.29	35 154	65.47
Benelux	3 323	5.96	4 500	8.38	5 284	9.84
France	6 170	11.06	5 680	10.58	6 084	11.33
Italy	2 062	3.70	2 473	4.61	1 653.5	3.08
Denmark	975	1.75	875	1.63	899	1.67
Ireland	201	0.36	619	1.15	30	0.06
United Kingdom	3 910	7.01	5 026	9.36	4 590	8.55
	55 774		53 688		53 694.5	

Whereas, taking into account these figures and the foreseeable development of the product concerned during 1977 and, in particular, the forecasts made by some Member States, the initial shares may be fixed approximately at the following percentages:

Germany	65.93
Benelux	10.14
France	8.20
Italy	0.25
Denmark	2.67
Ireland	1.66
United Kingdom	11.15

Whereas in order to take into account the import trends for the product concerned in the Member States, the quota volume should be divided into two instalments, the first instalment being allocated to the Member States and the second forming a reserve intended ultimately to cover the requirements of the Member States, should their initial share be used up; whereas, in order to ensure a certain degree of security to importers, the first instalment of the Community quota should be determined at a relatively high level, which under present circumstances could be approximately 80% of the quota volume;

Whereas the initial shares may be used up sooner or later; whereas, in order to take this fact into account and to avoid any break in continuity, it is important that any Member State which has used up almost all its initial share should draw an additional share from the reserve; whereas this must be done as and when each of its additional shares in the quota is almost entirely used up, and repeated as often as the reserve allows; whereas the initial and additional shares must

be available for use until the end of the quota period; whereas this method of administration calls for close cooperation between the Member States and the Commission, which must in particular be able to observe the extent to which the quota volume is used up and inform the Member States thereof;

Whereas if, at a specified date in the quota period, a considerable quantity of the initial quota share remains in any Member State, it is essential that the Member State should return a certain proportion thereof to the reserve, in order to avoid part of the Community quota remaining unused in one Member State when it could be used in others; whereas, taking into account the seasonal nature of imports, it seems appropriate to fix the quantity which may be returned at 40% of the initial share;

Whereas, since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and represented by the Benelux Economic Union, any measure concerning the administration of the quota shares allocated to that economic union may be carried out by any of its members,

HAS ADOPTED THIS REGULATION:
