COM(78) 155 final

~~UNIVISION~~ 13 April 1978

Proposal for a
COUNCIL REGULATION (EEC)

on the opening, allocating and providing for the administration of
a Community tariff quota for sherry falling within heading No ex 22.05
of the Common Customs Tariff, originating in Spain

(submitted to the Council by the Commission)

COM(78) 155 final

EXPLANATORY MEMORANDUM

1. When the Agreement between the EEC and Spain has been signed in 1970, the Community bind oneself to grant a preferential tariff regime to the importations in the Community of certain wines with origin in Spain. As to satisfy to this engagement the Community has opened each year two tariff quotas at reduced duty rates :

(a) sherry wines

- (i) in containers of two litres or less,
40 000 hl at CCT duty reduced by 60%;
- (ii) in containers of more than two litres
310 000 hl at CCT duty reduced by 50%;

it being understood that these wines would remain subject to the provisions governing the common organization of the market in wine and especially to the reference price which is applicable to these wines.

2. However, this regime has been provided only for the importation of these products into the six original Member States, whereas the three new Member States have applied different regimes.

In conformity with the Act of Accession imports of these products into the new Member States are subject, since 1 July 1977, to the customs duties inscribed into the Common Customs Tariff.

In this situation, a uniform regime of importation should be established. Hence the forementioned quota volumes should be increased in such a manner as to take account of the traditional quantities imported in the new Member States.

./..

This leads to an increase to

- 108 000 hectolitres and 685 000 hectolitres for Sherry-wines.

Because of difficulties encountered in fixing the reference price which - in principle - should have been applicable as from 1 January 1978, the Community has opened, by Regulations (EEC) Nos 3012/77 and 532/78, four Community tariff quotas.

These quotas cover the period between 1 January and 30 April 1978 and amount in total to 36 000 hl and 228 340 hl.

In order to comply with the Community's obligation to Spain, it is necessary to open tariff quotas for these products for the period 1 May to 31 December 1978 for volumes amounting to respectively 72 000 hl and 456 660 hl.

This is subject of the annexed proposals.

3. These Regulations provide for the splitting up of the tariff volumes into two parts, of which the first will be allocated among the Member States as quota share and the second will be kept as a reserve. In the absence of Community statistics, the initial quota shares have been calculated on the basis of the most recent statistics on Spanish exports over a representative period and on Member States' forecasts.

Spanish statistics can be considered to give a rough picture of Community imports of the relevant products.

4. Because of the inherent particularities in trade in these wines which, additionally, are different from one Member State to another, the provisions of the Regulation, exceptionnally, do not lay down a common method of administration.

Annex : 1 proposal for a Council Regulation.

Proposal of
COUNCIL REGULATION (EEC)

on the opening, allocating and providing for the administration of a Community tariff quota for sherry, falling within heading No ex 22.05 of the Common Customs Tariff, originating in Spain

THE COUNCIL OF THE EUROPEAN
COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof,

Having regard to the proposal from the Commission,

Whereas on the signing of the Agreement between the European Economic Community and Spain⁽¹⁾ on 29 June 1970, the Community undertook to grant preferential tariff arrangements for imports into the Community of certain wines originating in Spain, in particular sherry; whereas in order to satisfy this undertaking, the Community has opened each year two tariff quotas, namely:

- 40 000 hectolitres at a duty rate of 40 % of the Common Customs Tariff duties, for sherry in containers holding two litres or less, falling within subheadings ex 22.05 C III a) 1 and ex 22.05 C IV a) 1, originating in Spain and
- 210 000 hectolitres at a duty rate of 50 % of the Common Customs Tariff duties, for sherry in containers holding more than two litres, falling within subheadings ex 22.05 C III b) 1 and ex 22.05 C IV b) 1, originating in Spain;

Whereas these preferential tariff arrangements were laid down only for imports of these products into the Member States of the Community as originally constituted; whereas, under the Act of Accession, importation of these products into the three new Member States are subject to Common Customs Tariff duties with effect from 1 July 1977; whereas the import arrangements for these products should be uniform throughout the Community; whereas therefore the aforementioned annual quotas should be increased to 108 000 hectolitres and 685 000 hectolitres respectively; whereas by reason of special circumstances the Community has already opened Community tariff quotas by Regulations (EEC) Nos 3012/77⁽³⁾ and 532/78⁽⁴⁾ for the global volumes of 36 000 hectoliters and 228 340 hectoliters respectively for the period 1 January to 30 April 1978; whereas tariff quotas of 72 000 and 456 660 hectoliters respectively should thus be opened for the said wines for the period 1 May to 31 December 1978;

(2) OJ No L 182, 16.8.1970, p. 2

(3) OJ No L 355, 31.12.1977, p. 27

(4) OJ No L 74, 16.3.1978, p. 1.

Whereas, for particular reasons inherent in the method of production and distribution of the product concerned, the import of these wines into the Community is for the greater part carried out in the last months of each year; whereas as a consequence the volume of the quotas opened for the period 1 January to 30 April 1978 have not been completely used up; whereas by way of exception it is necessary to provide for the residual amounts left over from this period to be taken into consideration to be used during the period of validity of this Regulation;

Whereas these wines remain subject to the provisions governing the common organization of the market in wine; whereas inclusion in the Community tariff quota should be subject to production of movement certificate A.E. 1 and a certificate of designation or origin as provided for in Regulation (EEC) No 1120/75⁽¹⁾;

Whereas Council Regulation (EEC) No 2506/76 of 29 September 1975 laying down special rules for the importation of products in the wine-growing sector originating in certain third countries⁽²⁾ introduced the idea of a free-at-frontier reference price, being the reference price less customs duties actually levied;

Whereas it is in particular necessary to ensure to all Community importers equal and uninterrupted access to the abovementioned quotas and uninterrupted application of the rates laid down for these quotas to all imports of the products concerned into all Member States until the quotas have been used up; whereas, having regard to the principles mentioned above, the Community nature of the quotas can be respected by allocating the Community tariff quotas among the Member States; whereas, in order to reflect most accurately the actual development of the market in the products concerned, such allocation should be in proportion to the needs of the Member States, assessed by reference to both the statistics of each State's imports of the said products from Spain over a representative period and the economic outlook for the quota period concerned;

Whereas available Community statistics give no information on the situation of sherry on the markets; whereas, however, Spanish statistics for exports of these products to the Community during the last few years can be considered to reflect approximately the situation of Community imports; whereas on this basis the corresponding imports by each of the Member States during the last three years represent the following percentages of the imports into the Community from Spain of the products concerned:

(1) OJ No L 111, 30.4.1975, p. 19
(2) OJ No L 256, 2.1.1976, p. 2

Sherry-wines which enter the geographic territory of the Community from 1 May 1978 shall observe the reference prices applicable to them and also the rules of

by which is

Sherry :			
— in containers holding two litres or less :			
Benelux	45.5	49.5	62.5
Denmark	3.7	5.2	5.7
Germany	12.1	12.0	13.4
France	0.4	0.3	0.3
Ireland	2.8	1.3	1.0
Italy	4.9	1.4	1.2
United Kingdom	30.6	30.3	15.8

Benelux	25.7	39.9	35.3
Denmark	3.2	2.9	5.1

France	0.1	0.1	0.1
Ireland	1.0	0.7	0.9
Italy	0.0	0.0	0.0
United Kingdom	67.6	53.5	55.2

Whereas, in view of these factors and of the estimates submitted by certain Member States, initial quota shares may be fixed approximately at the following percentages :

Member States	Sherry in containers holding	
	two litres or less	more than two litres
Benelux	53.61	33.46
Denmark	5.05	3.83
Germany	13.20	2.99
France	0.31	0.03
Ireland	2.06	0.78
Italy	2.11	0.01
United Kingdom	23.66	58.90

Whereas, in order to take into account import trends for the products concerned in the different Member States, each of the quota amounts should be divided into two tranches, the first tranche being allocated among the Member States and the second forming a reserve intended ultimately to cover the requirements of the Member States which have used up their initial quota shares ; whereas, in order to ensure a certain degree of security to importers in each Member State, the first instalment of the Community quotas should be determined at a level which, under present circumstances, may be about 90 % of each of the quota amounts ;

Whereas the initial quota shares of the Member States may be used up at different times ; whereas, in order

to take this fact into account and avoid any break in continuity, it is important that any Member State having used up almost the whole of one of its initial quota shares should draw an additional quota share from the corresponding reserve ; whereas this must be done by each Member State as and when each of its additional quota shares is almost entirely used up, and repeated as many times as the reserve allows ; whereas the initial and additional quota shares must be available for use until the end of the quota period ; whereas this method of administration calls for close cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which the quota amounts are used and inform Member States thereof ;

Whereas since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are united in and represented by the Benelux Economic Union any measure concerning the administration of the quota shares allocated to that economic union may be carried out by any one of its members,

HAS ADOPTED THIS REGULATION :

Article 3

1. If 90 % or more of one of the initial shares of a Member State, as laid down in Article 2 (2), has been exhausted, that Member State shall proceed without delay, by notifying the Commission, to draw a second share equal to 10 % of its initial share, rounded up to the next unit where appropriate, to the extent that the amount in the reserve allows.

2. If, after one or other of its initial shares have been exhausted, 90 % or more of the second share drawn by a Member State has been used, that Member State shall proceed in the manner specified in paragraph 1 to draw a third share equal to 5 % of its initial share, rounded up to the next unit where appropriate.

3. If, after one or other of its second shares have been exhausted, 90 % or more of the third share drawn by a Member State has been used, that Member State shall, in accordance with the same conditions, draw a fourth share equal to the third.
