EXPLANATORY MEMORANDUM

The consultations which have taken place between the European Economic Community, the Government of Denmark and the Home Government of the Farce Islands, according to the rules set out in the Framework Agreement on Fisheries negotiated between the two parties, have resulted in agreement between the two delegations about fishing rights for the year 1979 for each party in the waters of the other.

It is the purpose of the two Regulations proposed hereby to establish a regime allowing Faroese vessels to fish in the Community fishery zone in accordance with the agreements reached during the said consultations. The arrangements provided for in these Regulations are based upon the attached Agreed Record of the conclusion of the consultations. Since the interim regime under which Farcese vessels are authorised to fish at present in the Community's fishery zone (Regulation (EEC) no 397 /79 expires on 31 March 1979 it is necessary that a new regime is adopted before that date if an interruption of the reciprocal fishing activities between the Community and the Faroe Islands is to be avoided.

In order to respect this time limit the Commission proposes that the proposed regime be established initially by an interim Regulation on the basis of Article 103 of the Treaty and subsequently replaced by a Regulation adopted under Article 43. The Commission therefore submits at the same time proposals for two Regulations.

The Council is invited to adopt the Regulation based upon Article 103 before 31 March and to adopt the second Regulation based upon Article 43 as soon as possible after having consulted the European Parliament.

PROPOSAL FOR A COUNCIL REGULATION (EEC)

laying down for the period 1 January to 31 December 1979 certain interim measures for the conservation and management of fishery resources applicable to vessels registered in the Faroe Islands.

THE COUNCIL OF THE EUROPEAN COMMUNITIES.

Having regard to the Treaty establishing the European Economic Community, and in particular Article 103 thereof,

Having regard to the proposal from the Commission,

Whereas on 3 November 1976 the Council adopted a set of resolutions concerning certain external and internal aspects of the common fisheries policy;

Whereas the Community on the one hand and the Government of Denmark and the Home Government of the Farce Islands on the other have signed a Framework Agreement on fisheries;

Whereas the Commission has submitted the Agreement to the Council for approval;

Whereas the Community, the Government of Denmark and the Home Government of the Faroe Islands have held consultations concerning their mutual fishing allocations for 1979;

Whereas during these consultations the delegations agreed to recommend their respective authorities that they fix certain catch quotas for 1979 for vessels of the other party;

Whereas delegations from the Community and Canada have agreed to recommend their authorities that they coordinate their decisions on the allocations to be given to third parties of certain joint stocks of fish and prawn in Davis Strait and Baffin Bay;

Whereas the two delegations have agreed to recommend their authorities that they allocate to the Farce Islands 4.136 tonnes of the said joint stock of prawn of which a specified part is to be taken in the Community zone;

Whereas fishing by Faroese vessels in the fishing zone of the Community is authorised until 31 March 1978 by Council Regulation (EEC) No 397/79 (1);

Whereas in order to avoid an interruption of the Community's and Farce's reciprocal fishing activities it is necessary that the Community adopt a new regime before 31 March 1979 allowing fishing by Farcese vessels in the Community's fishing zone in accordance with the arrangements agreed upon during the consultations referred to above:

Whereas in order to respect this time-limit it is necessary to establish this regime as an interim measure on the basis of Article 103 of the Treaty, subject to it being included at a later date in the common agricultural policy,

HAS ADOPTED THIS REGULATION:
