## RAPID INFORMATION

### CONSUMER PRICE INDICES IN JULY 1985

Between June and July the consumer price index for the community only rose by 0,1 %. This moderate increase is partially due to seasonal variations in some countries. The rate of increase is exactly the same as in July 1984.

For five countries there is a decrease in the index figures : Greece (-0.7 %), Denmark (-0.4 %), the FR of Germany, the Netherlands and the United Kingdom (-0.2 %). For the other countries, the recorded increases were between 0.3 and 0.5 %.

Concerning the rates of increase over 12 months, the rise in July (compared to July 84) is, except for Italy and Luxembourg, slightly less than the average of the second quarter. The figures are shown in the table below.

	<u>2nd quarter</u>	<u>July</u>
Germany (FR)	2.4	2.3
France	6.5	6.1
Italy	9.4	9.5
