PUBLISHED**

Energy statistics yearbook – 1981

ISBN 92-825-3502-9 (DE/EN/FR/IT)

Format A 4, approximately 240 pages, price BFR 1 000

The 'Energy statistics yearbook' groups in a single publication an extensive volume of statistical information relating to the energy economy of the Community and the Member States, particularly for the most recent year available.

The first chapter covers the characteristic data of energy economics in recent years.

The second chapter concerns the overall 'energy supplied' balance sheets for the Community and each Member State for the most recent year. These balance sheets are presented in detailed form in specific units and in terajoules, and in a more aggregated form in terajoules and in tonnes oil equivalent.

The third chapter gives historical series for each energy source for the principal aggregates characterizing the structures of energy economics.

Fishery statistics

Eurostat has been occupied with fishery statistics since its very early days and held the first meeting of a working group devoted to this subject in July 1962. However at that time fisheries was very much an adjunct to agriculture, the greater part of the effort being concentrated on fish as a food rather than fisheries as an industry.

It is generally accepted that, in the 1960s, most major fisheries were being over-exploited and it was the realization that fish were not an unlimited resource that was a major factor influencing many nations to extend economic zones to, generally, 200 miles from the coast. This move, which gained impetus in the early 1970s, had the effect of bringing a very large proportion of the fish stocks under national 'jurisdiction', whereby the activities of foreign fleets could be strictly controlled and the interests of the national fleets protected. Fisheries therefore became a sector of intense political activity and management plans were developed that encompassed both the 'landward' side of the industry (marketing and processing of the product) and the 'seaward' side of the industry (regulation of the catch, structure of the fishing fleets). While the former sector had often been covered by national legislation, the latter (except for the occasional regulation restricting activity in a very narrow coastal band) had not. Management of the fish stocks was attempted by means of international agreements that were difficult to negotiate and almost impossible to enforce.

The European Community has followed this trend of activity in fisheries, having declared an extended economic zone from 1 January 1977 and having recently agreed a common fisheries policy after about seven years of negotiation. This activity in fisheries and the development of management programmes has necessitated a review of the programme of

fishery statistics, both within the national services and in international organizations such as Eurostat.

As in other sectors, there was an early agreement within the services of the EC Commission that data required for the short-term (i.e. day-to-day) management of fisheries would be the responsibility of the appropriate administration (in this case, the Directorate-General for Fisheries), while data required for medium- to long-term management plans would be the responsibility of Eurostat. Notwithstanding this division of responsibilities for the work, there has been close collaboration between the two services to ensure that the requirements for data are covered and that the same concepts and definitions are used throughout.

A major decision taken by Eurostat when increasing its activities in fishery statistics was to make full use of systems developed by other organizations working in the same domain. Fisheries are truly international and there are few fish stocks which spend their whole lives in EC waters. For an effective management of these stocks full account has to be taken of the exploitation which they experience in other waters. A data base to assist the management of these stocks has to include data from all the areas in which the stock is found and data from all the fishing fleets which are exploiting it. Therefore Eurostat could not contemplate establishing a statistical system for the Community which was not integrated in a wider system. EC Member States, and the applicant States, fish in most regions of the world and accordingly Eurostat has developed close contacts with the international organizations having particular responsibilities for these areas. This cooperation has resulted in Eurostat becoming a full and active member of the Coordinating Working Party on Atlantic Fishery

Statistics (CWP)¹, the 11th Session of which Eurostat hosted in Luxembourg in July 1982. Since its inception in 1959, the CWP has played an important role in the harmonization of concepts, definitions and data retrieval systems for the fishery statistics of the Atlantic Ocean and beyond. A major component of its work has been the development of a harmonized system of Statlant questionnaires for the reporting of catches and the corresponding fishing effort by the various parts of the national fleets.

Eurostat now uses data submitted on these Statlant questionnaires as the input material for its data base on catches by fishing region. This integration in a wider system has a number of advantages:

- (a) Member States are not required to submit data in differing forms to different organizations;
- (b) Eurostat is able to obtain comparable data for non-Member States that exploit the same fish stocks;
- (c) Eurostat is able to benefit from the checking of submitted data undertaken by the other international organizations, with their expert staff and 'local' knowledge;
- (d) Using Statlant data previously submitted to these organizations Eurostat has been able to build up a data base of 10-15-year time-series.

These data on catch by fishing region comprise the greater part of the Cronos domain 'FISH', which may be consulted by subscribers to the Euronet network.

An important element in the management of fisheries is the structure of the fishing fleet. Plans to limit the catch of fish or to limit or modify the capacity of the fleet to catch fish cannot be formulated realistically without a knowledge of the sizes and types of fishing vessels in the fleet. As management plans become more sophisticated, so the demand for better fleet statistics grows and it is now evident that the normal practice of producing a limited number of standard statistical tables from national registers that are often incomplete and do not employ automatic data-processing techniques cannot satisfy the demand for data. Therefore, in 1978 Eurostat, through its Working Group 'Fishery Statistics', proposed establishing a statistical register of Community fishing vessels that would be able to meet the administrators varied and often urgent requests for data. Once initial fears regarding the confidentiality of records on individual vessels had been overcome, the Member States cooperated fully in this project. Nine Member States (Luxembourg has no fishing fleet!) have submitted individual records on approximately 54 000 fishing vessels using a common computer format. Programs have been written for the extraction of standard tables from the register (thus ridding the Member States of the task of compiling such tables for national and international purposes) and work is in progress to produce a program which will permit *ad hoc* requests for data to be met. Attention is now being focused on establishing a procedure for the annual updating of the register and on the possibility of improving coverage. Data from the register are being used to update that part of the Cronos domain 'FISH' related to fleet statistics.

Although Eurostat has greatly increased its activity in developing a statistical system for catch and fleet data, it has not ignored the sector in which previously it had been predominately active, the collection and compilation of data on the quantity and value of landings of fishery products. Indeed an attempt is being made to assess the overall

¹ The member organizations of the CWP are: Food and Agriculture Organization of the United Nations (FAO), International Council for the Exploration of the Sea (ICES), Northwest Atlantic Fisheries Organization (NAFO), International Commission for the Southeast Atlantic Fisheries (ICSEAF), International Commission for the Conservation of Atlantic Tunas (ICCAT), Commission for the Conservation of Antarctic Marine Living Resources (CCALMR), Statistical Office of the European Communities (Eurostat) and the Organization for Economic Cooperation and Development (OECD).

supply situation within the Community by establishing a simple system of balance sheets which takes account of the landings and the foreign trade in fish fishery products.

Eurostat believes that it is developing a programme of fishery statistics that is well adapted to meeting the new requirements of fishery managers. The work is not complete: apart from the developments in the fishing

fleet register and the supply balance sheets mentioned above, efforts are being made to improve and expand the contents of the Cronos domain 'FISH', to improve the publication programme by the introduction of a 'Yearbook of fishery statistics' and to improve the flow of data, initially between international organizations, by the introduction of harmonized computer formats.

D. G. Cross

The structure of agricultural production in EC countries

The European Community has many regional faces. In the north, conditions often prevail which are totally different from those in the south.

This is particularly true of agriculture, where climate, soil quality, situation of slopes, etc. have a decisive effect on production structures. Vines do not thrive in the north but barley most certainly does. Frequent rainfall and moderate sunshine produce lush green meadows and pastures in the north but in the south the grass just dries out in the summer sun unless it can be artificially irrigated. On the other hand, the south is a natural garden of paradise with citrus fruits, peaches, strawberries and many other types of fruits and vegetables, whilst in the north, and in particular in the Netherlands, greenhouses with auxiliary energy – to counterbalance nature – are used for producing grapes, strawberries, and vegetables.

It is therefore hardly suprising when the varying production structures cause interests to clash at the EC Council of Ministers' meetings in Brussels.

In many cases, unanimous decisions can only be reached after long and difficult negotiations. Each partner must make allowances, to

a greater or lesser extent, for the interests of the others until finally a compromise is reached in the form of legally binding decisions.

The extent to which interests conflict is indicated by the economic accounts for agriculture compiled by the Statistical Office of the European Communities in Luxembourg, which are now available for 1981.

On average, 42 % of the total final agricultural production originates in the crop sector and 58 % in the animal sector. There are, however, considerable deviations from the average:

In Ireland, the Emerald Isle, with ideal conditions for grazing, the crop sector has a share of only 15 %; 36 % of sales are accounted for by beef and 32 % by milk. In Denmark the share of crop production is also relatively low at 26 %. Pig production dominates here with a share of 31 %.

By contrast, Greek agriculture is characterized by the fact that 65 % of its production is in the crop sector: cereals, vegetables, citrus fruits, tobacco and cotton. In Italy too, crop products have a particularly large share of 58 %.

The Federal Republic of Germany, with a share of 31 % for crop production, is appreciably below average, as is the case in Belgium, the Netherlands and the United Kingdom. By contrast, 80 % of agricultural products in Luxembourg are accounted for by animals, comprising 40 % from milk and 29 % from beef. Cereals represent only 6 % of total agricultural production in Luxembourg.

The largest agricultural producer in the Community, France, which alone contributes more than a quarter of the total EC agricultural output, produces proportionately (with a share of 45 %) considerably more in the crop sector than most EC countries, but considerably less than Italy and Greece. To a large extent French agriculture is geared to cereals, which head the list with 18 % of total final agricultural production, followed closely by milk products. Beef production has only a

slightly lower share. Wine accounts for 8 % of the total value of French agricultural output.

Production of wine in Luxembourg is, relatively speaking, even more important, as 9 % of sales of Luxembourg agricultural products are accounted for by the wine sector.

The great differences in production structures amongst the 10 EC partners described above provide the key to the frequent discrepancies in the negotiating positions of individual States in Brussels and the difficulties often encountered in finding compromises which take account of the varying interests of all the partners. Europe's diversity represents both its wealth and also a source of constant internal friction.

Eighteenth biennial conference of the International Association for Research in Income and Wealth

Eurostat will have the pleasure of acting as host to the next conference of the IARIW, which will take place in Luxembourg on 22—27 August 1983. This comes at an important time when the groundwork is being laid through various international meetings at Community, European and world level for a revision of the international recommendations on the national accounts, which in turn will have repercussions on the definitions and requirements for basic statistics. It can be seen as recognition of the work Eurostat has done over the last 20 years and its future role in this area.

The Association

The IARIW is an association of economists who are interested in the definition and mea-

surement of income and wealth, systems of economic and social accounting and the improvement of the basic statistics underlying these accounts. Many important subjects such as income distribution and the measurement of changes in prices are also included.

In most countries and international organizations the professionals working on these matters tend to be a small group who have limited opportunity to have contact with others interested in their subject matter. Even where there are national professional societies, few other members of such societies have interests that directly overlap those of the professionals working in the statistical service. The meetings of the International Association fill this gap; they provide a gathering place for professionals interested in the topics that con-

cern the various national and international statistical services. The meetings are also attended by academic people from all over the world who are pursuing studies related to the broad areas of income and wealth. This combination of academic and government statisticians and economists, which goes back to the notions of the distinguished founders of the organization, including Simon Kuznets, Jan Tinbergen, Ragnar Frisch and Richard Stone, has provided for a fruitful exchange of views between academicians and those engaged in the practical work of government statistical offices.

The 18th conference

The conference will take place in Luxembourg from 22—27 August 1983 and is expected to draw some 150 to 200 participants mainly from Europe and North America, with a small participation from other continents. Following the traditions of the Association, it is divided into sessions, for each of which there are about six papers to be discussed. The authors and the list of papers have already been decided. The subjects are as follows:

1. Inflation accounting
2. Government services and total consumption of the population
3. The measurement of actual and implicit transfers
4. National experiences in the use of computers for national accounts
5. The use of micro-data sets and statistical matching
6. The unrecorded economy
7. New developments in national accounting (selected topics)
8. International comparisons of income distribution
9. Contributed papers.

Further information

Further information about the conference or the Association itself can be obtained from:

The International Association for Research in Income and Wealth, PO Box 1962 (Yale Station), New Haven, Connecticut 06520, USA.

NATIONAL ACCOUNTS ESA — INPUT-OUTPUT TABLES 1975

ISBN 92-825-3293-3 (EN/FR)

Format A 4, 263 pages, price BFR 750

This volume consists of two parts. The first part outlines the general features of the 1975 input-output tables, and some problems relating to the harmonization of the tables. The second part is divided into three sections: the first presents the tables for the Community countries separately and for the EC as a whole; the second shows some comparative tables between member countries, including vertical coefficients and some key variables; the third includes the inverse of the matrix $(I - Ad)$ for the member countries. (2. 2. 2/82)

REGIONAL ACCOUNTS ESA — DETAILED TABLES BY BRANCHES

ISBN 92-825-3312-3 (DA/DE/EN/FR/IT/NL)

Format A 4, 173 pages, price BFR 500

Main aggregates of economic accounts for the basic administrative units of the Community. Time series covering 1970—1980 for value-added by broad groups of branches (agriculture, industry, services), for population and for employment. Detailed results for 1977 and 1978. (2. 5. 2/82)

Theme 3

EMPLOYMENT AND UNEMPLOYMENT — STATISTICAL BULLETIN No 5-1982

(EN/FR)

Format A 4, 13 pages, price BFR 60

In order to provide information on employment statistics as quickly as possible, Eurostat publishes at irregular intervals a Statistical Bulletin on employment and unemployment which updates the main data contained in the annual publication *Employment and unemployment*. The data in the Bulletin relate mainly to the annual statistics on working population and employment, the structure of registered unemployment, employees in employment in industry and the service sector by NACE class, and the social aspects of employment in the iron and steel industry (ECSC). The numerical data are often accompanied by a short commentary highlighting the main phenomena observed. (3. 4. 2/82)

THE HANDICAPPED AND THEIR EMPLOYMENT

ISBN 92-825-3094-9 (DE), ISBN 92-825-3095-7 (EN)

ISBN 92-825-3096-5 (FR), ISBN 92-825-3097-3 (IT)

Format A 4, 309 pages, price BFR 300

A statistical survey of the handicapped and their employment in the Community was conducted in 1981 as one of the EC Commission's contributions to the United Nations' Year of the Disabled. It also represented

an in-depth continuation of work in this field which the Statistical Office had started some years earlier (cf. G.Y. Rouault, *The handicapped and their employment*, Eurostat, Luxembourg/Brussels, 1978). This text deals with all questions relevant to the topic (legislation, figures on the disabled, training measures, successes and failures in occupational and social integration, etc.) using a standard breakdown by country which both provides a picture of the situation as a whole and facilitates comparison of specific aspects between the Community countries (excluding Greece).

The author has used the most recent figures available (mainly 1979/1980) but draws attention to omissions and the reasons for them. By mentioning this and by describing the often heterogeneous and uncoordinated way in which legal and organizational responsibility for the problems of the disabled is allocated, he pinpoints areas for further research and political action. The address lists he provides of the authorities, organizations and persons responsible in each country will be particularly useful for further cooperation in this field in Europe. (3. 4. 4/81)

EARNINGS IN AGRICULTURE 1980

ISBN 92-825-3257-7 (DA/DE/EN/FR/IT/NL)

Format A 4, 134 pages, price BFR 350

This publication presents the methodology and detailed results of the Community survey of the earnings of permanent manual workers in agriculture in 1980. Included are data on the number of manual workers, earnings and the number of hours paid per month, broken down by sex, age, level of qualification, nature of the work performed, size of the holding as well as relating to the existence of benefits in kind. In addition, data for certain countries are broken down by large regions. (3. 6. 2/81)

Theme 4

EC-RAW MATERIALS BALANCE SHEETS 1980

ISBN 92-825-3258-5 (DE/EN/FR)

Format A 4, 37 pages, price BFR 350

Supply balance sheets for 20 mineral raw materials for the year 1980 compared with 1979. Consolidated balance sheets for the EC, Member States and certain third countries. Balance sheet ratios showing the degree of external dependence and self-sufficiency in raw materials. EC imports of raw materials by country of origin. World raw materials reserves. Raw materials consumption per capita, Ø 1978—1980. (4. 1. 4/82)

IRON AND STEEL YEARBOOK 1982

ISBN 92-825-3294-1 (DE/EN/FR/IT)

Format A 4, 173 pages, price BFR 1 000

Yearly statistics on the structure and the economic situation of the Community's iron and steel industry: employment, size of enterprises, plants, crude steel, iron and scrap balances, production of iron ore, pig-iron, crude steel, finished steel and end products, consumption of raw materials, works deliveries and receipts, external trade of scrap and ECSC products, indirect foreign trade, steel consumption, investments of the iron and steel industry, prices and levy. (4. 3. 1/82)

ANALYTICAL TABLES OF FOREIGN TRADE — NIMEXE — IMPORTS 1981 (13 volumes)

ISBN 92-825-3284-4 (Multilingual edition)

Format A 4, approximately 2 900 pages, price per series BFR 10 000

External trade statistics of the European Community and of the Member States in the Nimexe nomenclature.

Breakdown into products by country order for each 6-figure Nimexe heading in 12 volumes (A-L) by commodity group and into country by products order by Nimexe chapter (2-figure code) in a 13th volume (Z).

The volumes cover the following groups of products:

Volume A: Chapters 1-24 ISBN 92-825-3271-2	Agricultural products	price BFR 1 500
Volume B: Chapters 25-27 ISBN 92-825-3272-0	Mineral products	400
Volume C: Chapters 28-38 ISBN 92-825-3273-9	Chemical products	1 100
Volume D: Chapters 39-43 ISBN 92-825-3274-7	Artificial materials, leather	650
Volume E: Chapters 44-49 ISBN 92-825-3275-5	Wood, cork, paper	600
Volume F: Chapters 50-67 ISBN 92-825-3276-3	Textiles, footwear	1 600
Volume G: Chapters 68-72 ISBN 92-825-3277-1	Stone, plaster, glass, ceramics	600
Volume H: Chapter 73 ISBN 92-825-3278-X	Iron and steel	600
Volume I: Chapters 74-83 ISBN 92-825-3279-8	Other base metals	600
Volume J: Chapters 84-85 ISBN 92-825-3280-1	Machinery, appliances	1 700
Volume K: Chapters 86-89 ISBN 92-825-3281-X	Transport equipment	450
Volume L: Chapters 90-99 ISBN 92-825-3282-8	Optical precision instruments	950
Volume Z: ISBN 92-825-3283-6	Countries — products	1 000 (6. 2. 2/82)

ANALYTICAL TABLES OF FOREIGN TRADE — NIMEXE — IMPORTS 1981

(on microfiches)

ISBN 92-825-3285-2, price complete series BFR 2 500, per microfiche BFR 75

External trade statistics of the Community and of the Member States in the Nimexe nomenclature:

— breakdown of products by countries in the 6-digit Nimexe code Value and Weight (module 1115) and Supplementary Units (module 1116).

The following supplements to this publication are available at the Statistical Office of the European Communities:

- breakdown of products by countries
in a 4-digit Nimexe code (module 1121) and
in a 2-digit Nimexe code (module 1131)
- breakdown of countries by products
in a 6-digit Nimexe code,
in a 4-digit Nimexe code and
in a 2-digit Nimexe code (module 2111)

(6. 2. 2/82)

ANALYTICAL TABLES OF FOREIGN TRADE — SITC/CTCI, REV. 2 — IMPORTS 1981

(6 volumes)

Multilingual edition

Format A 4, approximately 1450 pages, price for the complete series BFR 6000, per volume BFR 1 200

External trade statistics of the European Community and of the Member States in SITC (Standard International Trade Classification — SITC, rev. 2):

- arranged in order of 'product by country' to 3 and 5 digits;
- arranged in order of 'country by product' to 5, 4, 3, 2 and 1 digits.

Volume I	Countries — products	ISBN 92-825-3304-2
Volume II	0-4	ISBN 92-825-3305-0
Volume III	5	ISBN 92-825-3306-9
Volume IV	6	ISBN 92-825-3307-7

BASIC STATISTICS OF THE COMMUNITY — 1982

ISBN 92-825-3183-X (DA)

ISBN 92-825-3184-8 (DE)

ISBN 92-825-3185-6 (GR)

ISBN 92-825-3186-4 (EN)

ISBN 92-825-3187-2 (FR)

ISBN 92-825-3188-0 (IT)

ISBN 92-825-3189-9 (NL)

Format A 6, approximately 235 pages, price BFR 200

Selection of the Community's basic statistics and a comparison with a number of other European countries, plus the USA, Japan and the USSR.

This selection covers the following subjects:

- General statistics: illustrations
- National accounts, finance and balance of payments
- Population and social conditions
- Industry and services
- Agriculture, forestry and fisheries
- Foreign trade.

(1. 1. 2/82)

YEARBOOK OF REGIONAL STATISTICS

ISBN 92-825-3316-6 (DA/DE/GR/EN/FR/IT/NL)

Format A 4, approximately 350 pages, price BFR 1 000

In this publication, the Statistical Office of the European Communities gives the latest statistics relating to economic and social factors in the regions of the European Community.

The issue contains information on:

- population and its structure
- employment and unemployment
- education, health and various social indicators
- economic aggregates

Internal publications to be published in 1983

These are documents primarily intended for the services of the Commission and the other European institutions and whose publication has been authorized by the Director-General. In certain cases and at the discretion of the sections responsible for their content, these internal publications are made available to professional bodies and national administrations which collaborate closely with the Office. They can be consulted at the Information Offices of the Commission.

We remind our readers that SOEC's 'Programme of publications for 1983' has been published in issue No 4-1982 of *Eurostat News*.

- the main series on the physical factors of the economy: agriculture, industry, energy and the services sector;
- the Commission's financial institutions and investments.

The main regional indicators will also be presented in a series of reference issues. In the near future, regional series for Greece will be included in the reference.

(1) 2 1988

THEMES 2

NATIONAL ACCOUNTS 211 — AGGREGATES 1961—1987

ISBN 92-825-1460-7 (hard cover)

ISBN 92-825-1461-4 (soft cover)

Format: A 4, approximately 100 pages, price EUR 4.00

Results of the principal national accounts aggregates compiled by recording at 10% price level (constant prices of 1980) the development and composition between the Commission as a whole (20% of GDP), the 10 Member States, the 10 non-member member countries (Spain, Portugal, Greece and Norway) and Japan.

(1) 2 1988

NATIONAL ACCOUNTS 212 — 214 — DETAILLED TABLES BY SECTOR 1961—1987

ISBN 92-825-1462-4 (hard cover)

Format: A 4, approximately 100 pages, price EUR 4.00

Detailed data for the Commission and the Member States on the main sectors of the economy: agriculture, industry, energy, services, construction, transport, trade and tourism, and the non-member countries in accordance with the European system of integrated classification codes.

(1) 2 1988

REGIONAL ACCOUNTS 234 — DETAILLED TABLES BY SECTOR

ISBN 92-825-1463-1 (hard cover)

Format: A 4, approximately 200 pages, price EUR 8.00

Data for the Member States are presented by sub-region (NUTS 2) and by sector (agriculture, industry, energy, transport and trade, services, construction, transport, trade and tourism, and the non-member countries in accordance with the European system of integrated classification codes).

(1) 2 1988

STATEMENT OF PAYMENTS 21 — 214 — 1987 (1988) (1987—1988)

ISBN 92-825-1464-8 (hard cover)

Format: A 4, approximately 100 pages, price EUR 4.00

The collection contains the generalised breakdown of the total amount of payments from the states (1987—1988).

The presentation of the data will be made according to the number of countries and regions which have signed treaties, entered the single market, and the number of countries which have signed the EC Act of Accession. The data will be presented in the Tables 212 and 214.

The data are derived from the accounts of the states, covering 1987 and 1988.

(1) 2 1988

- the main series on the different sectors of the economy: agriculture, industry, energy and the services sector
- the Community's financial participation in investments.

The main regional indicators will also be presented in a series of coloured maps. For the first time, regional series for Greece will be included in the yearbook. (1. 2. 1/82)

Theme 2

NATIONAL ACCOUNTS ESA — AGGREGATES 1960—1981

ISBN 92-825-3360-3 (EN/FR/NL)

ISBN 92-825-3361-1 (DA/DE/IT)

Format A 4, approximately 150 pages, price BFR 400

Results of the principal aggregates of the national accounts drawn up according to ESA (European system of integrated economic accounts). Development and comparison between the Community as a whole (EUR 10), the 10 Member States, the two prospective member countries (Spain, Portugal), the United States and Japan. (2. 1. 1/82)

NATIONAL ACCOUNTS — ESA — DETAILED TABLES BY SECTOR 1970—1980

ISBN 92-825-3317-4 (DA/DE/EN/FR/IT/NL)

Format A 4, approximately 380 pages, price BFR 1 000

Detailed data for the Community and the Member States on flows of income between institutional sectors (companies, households, government, etc.) and their financial transactions (change in assets and liabilities), compiled in accordance with the European system of integrated economic accounts (ESA). (2. 2. 1/82)

REGIONAL ACCOUNTS ESA — DETAILED TABLES BY BRANCHES

ISBN 92-825-3100-7 (DA/DE/EN/FR/IT/NL)

Format A 4, approximately 277 pages, price BFR 850

Data for the Member States are provided for operations on goods and services (gross value-added, earnings of employees, gross fixed capital formation, final consumption of households, the breakdown of employment by branch as well as structural data and figures based on purchasing power parities. (2. 3. 1/82)

BALANCE OF PAYMENTS — GEOGRAPHICAL BREAKDOWN 1976—1980

ISBN 92-825-3344-1 (EN/FR)

Format A 4, approximately 190 pages, price BFR 700

The publication contains the geographical breakdown of annual balance of payment data for the years 1976—1980.

A new presentation of the balance of payments items is used. The number of countries and partner zones has been significantly increased. Declaring countries are the Member States of the European Communities, the EC as a whole (EUR 9 and EUR 10) as well as the United States and Japan.

The data are expressed in millions of European currency units (ECU). (2. 6. 2/82)

PUBLICATIONS

Theme 3

EMPLOYMENT AND UNEMPLOYMENT

ISBN 92-825-3394-8 (DA/DE/EN/FR/IT/NL)

Format A 4, approximately 250 pages, price BFR 700

The statistical yearbook on employment and unemployment covers in a single volume all statistical aspects of the labour market:

- population;
- working population and employment according to sex, status and sector of activity;
- gainful employment in industry and the services (ISIC and NACE Nomenclatures);
- registered unemployment, vacancies and job placements;
- industrial disputes;
- working hours.

A special chapter is devoted to employment in the iron and steel industry. As far as they are available, the data relate to the years from 1970 to 1981 in the 10 Member States of the European Community; the main data on Spain and Portugal are given in an annex.

The main variables are illustrated by about 10 graphs.

(3. 4. 1/82)

SEMINAR ON THE MEASUREMENT OF EMPLOYMENT AND UNEMPLOYMENT LUXEMBOURG, 7—10 DECEMBER 1981 — Special issue Eurostat news 1983

ISBN 92-825-3259-3 (DE)

ISBN 92-825-3260-7 (EN)

ISBN 92-825-3261-5 (FR)

Format C 5, approximately 235 pages, free of charge

The employment crisis, with unemployment over 10 million in the European Community by end-1981, resulted in many new and varied demands for statistics and analysis. In order to take users' views into account in formulating its policy for this further development of Community labour market statistics, Eurostat organized a seminar in Luxembourg in December 1981. Professor J. Sexton of the Institute for Economic and Social Research, Dublin, kindly accepted the chairmanship of the seminar. This volume comprises a report on the proceedings of the seminar.

(3. 4. 7/82)

Theme 4

STRUCTURE AND ACTIVITY OF INDUSTRY IN THE EUROPEAN COMMUNITIES — 1978

ISBN 92-825-3476-6 (DA/DE/EN/FR/IT/NL)

Format A 4, approximately 235 pages, price BFR 1 000

The publication contains the main results for 1977 and 1978 of the coordinated annual inquiry into industrial activity, carried out by the Member States pursuant to a Council Directive of 6 June 1972. (4. 1. 2/82)

ENERGY STATISTICS YEARBOOK — 1981

ISBN 92-825-3502-9 (DE/EN/FR/IT)

Format A 4, approximately 240 pages, price BFR 1 000

The *Energy statistics yearbook* groups in a single publication an extensive volume of statistical information relating to the energy economy of the Community and the Member States, particularly for the most recent year available.

The first chapter covers the characteristic data of energy economics in recent years. The second chapter concerns the overall 'energy supplied' balance sheets for the Community and each Member State for the most recent year. These balance sheets are presented in detailed form in specific units and in terajoules, and in a more aggregated form in terajoules and in tonnes oil equivalent.

The third chapter gives historical series for each energy source for the principal aggregates characterizing the structures of energy economics. (4. 2. 1/82)

USEFUL ENERGY BALANCE SHEETS — 1980

ISBN 92-825-3463-4 (EN/FR)

Format A 4, approximately 60 pages, free of charge

This publication provides the useful energy balance sheets on 1980 for the Community as a whole and for each of the Member States.

These balance sheets are designed to show the energy actually used by final consumers and complement the final energy balance sheets published in the *Yearbook of energy statistics — 1980* (edition 1982). They reflect real energy content as well as the 'useful energy' recovered by the consumer in final output and take account of the losses at this last stage, thus providing a more accurate picture of the energy actually consumed. (4. 2. 2/82)

Theme 5*ECONOMIC ACCOUNTS — AGRICULTURE, FORESTRY*

ISBN 92-825-3405-7 (DA/DE/EN/FR/IT/NL)

Format A 4, approximately 175 pages, price BFR 350

This publication contains the most recent data on agriculture and forestry accounts. This edition includes tables, showing time-series for final production, intermediate consumption, gross value-added and fixed capital formation, for each of the Member States and the Community, in national currencies and in ECU, at current prices (and exchange rates) and at constant prices (and exchange rates). The data relate to the period from 1976 to 1981. (5. 4. 1/82)

Theme 6*GEONOMENCLATURE 1983*

ISBN 92-825-3335-2 (DA/DE/GR/EN/FR/IT/NL)

Format A 4, approximately 190 pages, price BFR 700

An annotated edition of the country nomenclature for the external trade statistics of the Community and statistics of trade between the Member States and a publication containing maps and tables with indexes. (6. 1. 1/82)

PUBLICATIONS

ANALYTICAL TABLES OF FOREIGN TRADE — NIMEXE — EXPORTS 1981

(13 volumes)

ISBN 92-825-3457-X (Multilingual edition)

Format A 4, approximately 2 900 pages, price per series BFR 10 000

External trade statistics of the European Community and of the Member States in the Nimexe nomenclature.

Breakdown into products by country order for each 6-figure Nimexe heading in 12 volumes (A-L) by commodity group and into country by products order by Nimexe chapter (2-figure code) in a 13th volume (Z).

The volumes cover the following groups of products:

Volume A: Chapters 1-24 ISBN 92-825-3444-8	Agricultural products	price BFR 1 500
Volume B: Chapters 25-27 ISBN 92-825-3445-6	Mineral products	400
Volume C: Chapters 28-38 ISBN 92-825-3446-4	Chemical products	1 100
Volume D: Chapters 39-43 ISBN 92-825-3447-2	Artificial materials, leather	650
Volume E: Chapters 44-49 ISBN 92-825-3448-0	Wood, cork, paper	600
Volume F: Chapters 50-67 ISBN 92-825-3449-9	Textiles, footwear	1 600
Volume G: Chapters 68-72 ISBN 92-825-3450-2	Stone, plaster, glass, ceramics	600
Volume H: Chapter 73 ISBN 92-825-3451-0	Iron and steel	600
Volume I: Chapters 74-83 ISBN 92-825-3452-9	Other base metals	600
Volume J: Chapters 84-85 ISBN 92-825-3453-7	Machinery, appliances	1 700
Volume K: Chapters 86-89 ISBN 92-825-3454-5	Transport equipment	450
Volume L: Chapters 90-99 ISBN 92-825-3455-3	Optical precision instruments	950
Volume Z: ISBN 92-825-3456-1	Countries — products	1 000 (6. 2. 2/82)

ANALYTICAL TABLES OF FOREIGN TRADE — NIMEXE — EXPORTS 1981

(on microfiches)

ISBN 92-825-3458-8, price complete series BFR 2 500, per microfiche BFR 75

External trade statistics of the Community and of the Member States in the Nimexe nomenclature:

— breakdown of products by countries in the 6-digit Nimexe code Value and Weight (module 1115) and Supplementary Units (module 1116).

The following supplements to this publication are available at the Statistical Office of the European Communities:

- breakdown of products by countries
in a 4-digit Nimexe code (module 1121) and
in a 2-digit Nimexe code (module 1131)
- breakdown of countries by products
in a 6-digit Nimexe code,
in a 4-digit Nimexe code and
in a 2-digit Nimexe code (module 2111)

(6. 2. 2/82)

ANALYTICAL TABLES OF FOREIGN TRADE — SITC/CTCI, REV. 2 — EXPORTS 1981

(6 volumes)

Multilingual edition

Format A 4, approximately 1 450 pages, price for the complete series BFR 6 000, per volume BFR 1 200

External trade statistics of the European Community and of the Member States in SITC (Standard International Trade Classification — SITC, rev. 2):

- arranged in order of 'product by country' to 3 and 5 digits;
- arranged in order of 'country by product' to 5, 4, 3, 2 and 1 digits.

Volume I	Countries — products	ISBN 92-825-3436-7

► Monthly bulletins

EUROSTATISTICS — DATA FOR SHORT-TERM ECONOMIC ANALYSIS (THEME 1)

ISSN 0252-8266 (DE/EN/FR)

Format A 4, approximately 90 pages, price BFR 1 140 annual subscription

This publication is produced essentially by an automatic photocomposition process after an extraction from the Cronos data bank. Four kinds of information are published in Eurostatistics: an article 'In brief' which looks at the latest trends in the data available, a visual presentation of the most important economic series for the Community and the Member States, 'Community tables' containing data harmonized by Eurostat on the basis of common criteria and 'Country tables' with a selection of the economic indicators most often used in each country. The bulletin appears at the beginning of each month in a trilingual edition.

(1. 1. 3/83)

UNEMPLOYMENT — MONTHLY BULLETIN (THEME 3)

ISSN 0252-9890 (DE), 0252-9920 (EN), 0252-9912 (FR), 0252-9904 (IT)

Format A 4, approximately 10 pages, price BFR 430 annual subscription

This bulletin, which appears on about the 20th of each month, shows the total of registered unemployed in each of the Member States of the European Community as at the end of the previous month.

Figures are given for the total of unemployed together with unemployed persons under 25 years broken down by sex.

These data are presented in absolute terms, as percentage changes, and as a proportion of the civilian working population. In the case of unemployed persons under 25 years, data in the last category appear for the first time. Figures are also shown for unemployed foreigners, the numbers of vacancies and vacancies filled during the month.

A table showing a regional breakdown of registered unemployed will be appearing in 1983 for the first time.

In addition to the data the main features of and trends in the labour market are commented on briefly and illustrated by a graph.

(3. 4. 3/83)

INDUSTRIAL SHORT-TERM TRENDS (THEME 4)

ISSN 0254-0231 (DE/EN/FR)

Format A 4, approximately 60 pages, price BFR 720 annual subscription

Short-term industrial indicators with commentary and graphs. The indicators relate to industrial production (gross indices per day worked and seasonally adjusted), turnover, new orders, exports and imports, number of persons employed and wages and salaries for 13 sectors of industry, three main groups of industrial products and for total industry. A special section of the bulletin deals with the short-term indicators of the building and civil engineering sector. The publication may include one or more supplements with methodological notes or long series in the course of the year: these are included in the subscription price.

(4. 1. 5/83)

IRON AND STEEL — MONTHLY BULLETIN (THEME 4)

ISSN 0378-7559 (DE/EN/FR/IT)

Format A 4, approximately 15 pages, price BFR 650 annual subscription

Short-term economic statistics (monthly) on production of pig-iron, crude steel, steel mill products, consumption and receipts of scrap and number of short-time workers.

(4. 3. 3/83)

HYDROCARBONS — MONTHLY BULLETIN (THEME 4)

ISSN 0378-3731 (DE/EN/FR)

Format A 4, approximately 32 pages, price BFR 860 annual subscription

Updates monthly the principal statistical series characterizing the short-term movements in the petroleum and gas industries.

(4. 2. 7/83)

COAL — MONTHLY BULLETIN (THEME 4)

ISSN 0378-357X (DE/EN/FR)

Format A 4, approximately 24 pages, price BFR 430 annual subscription

Updates monthly the principal statistical series characterizing the short-term movements in the coal industry.

(4. 2. 5/83)

ELECTRICAL ENERGY — MONTHLY BULLETIN (THEME 4)

ISSN 0378-3561, approximately 16 pages, price BFR 430 annual subscription

Updates monthly the principal statistical series characterizing the short-term movements in the electrical economy in general and fuel consumption in power stations in particular.

(4. 2. 6/83)

MONTHLY EXTERNAL TRADE BULLETIN (THEME 6)

ISSN 0378-3723 (DA/DE/GR/EN/FR/IT/NL)

Format A 4, approximately 170 pages, price BFR 2 580 annual subscription

General summary of foreign trade of the European Community by countries and by products. Trends in EC trade by countries and by products. Trade of the main non-EC countries. Indices.

(6. 2. 7/83)

PUBLICATIONS

► Quarterly bulletins

BALANCES OF PAYMENTS — QUARTERLY DATA (THEME 2)

ISSN 0251-1800 (EN/FR)

Format A 4, approximately 90 pages, price BFR 430 annual subscription

This publication provides the latest available quarterly and annual data on the global balances of payments (flows) of each European Community country, as well as for the Community as a whole (EUR 10 and EUR 9), of each of the candidate countries (Spain and Portugal) and of the United States and Japan. The publication includes comparative tables with the main balance items of a certain number of industrialized countries.

The data are expressed in millions of European currency units (Mio ECU); they are presented according to the Eurostat's balance-of-payments schema and cover the three latest annual and the nine latest quarterly available periods. (2. 6. 3/83)

QUARTERLY IRON AND STEEL BULLETIN (THEME 4)

ISSN 0378-3510 (DE/EN/FR/IT)

Format A 4, approximately 130 pages, price BFR 1 730 annual subscription

Annual, quarterly and monthly statistics on employment, consumption of raw materials, production of iron ore, pig-iron, crude steel, finished steel products and end products, on works deliveries and receipts, stocks, on external and internal ECSC steel and scrap trade and on apparent steel consumption. (4. 3. 3/83)

INDUSTRIAL PRODUCTION (THEME 4)

(DE/EN/FR)

Format A 4, approximately 200 pages, price BFR 600 annual subscription

Statistics of industrial production by product. Annual and quarterly data on production of industrial products in the Member States of the EC. (4. 1. 3/83)

CROP PRODUCTION (THEME 5)

ISSN 0378-3588 (DE/EN/FR/IT)

Format A 4, approximately 120 pages, price BFR 1 320 annual subscription

The most recent information on

1. Land use, crop production of arable land (area, yield, production), fruit and vegetable production;
2. Meteorological reports;
3. Supply balances for crop products. (4. 1. 3/83)

ANIMAL PRODUCTION (THEME 5)

ISSN 0250-6580 (DE/EN/FR/IT)

Format A 4, approximately 120 pages, price BFR 1 320 annual subscription

This quarterly bulletin on the volume of animal production comprises five parts. The first three parts contain the monthly statistics on meat (slaughterings, gross indigenous production, external trade in live animals), eggs and poultry (incubation of eggs, chicks hatched and external trade in chicks) and milk (collection of milk, dairies' production, stocks of butter and milk powder). Most of these statistics are forwarded to Eurostat by the Member States in accordance with Council directives or regulations.

Part 4 contains external trade statistics on meat, eggs and milk products; the basic data required for the compilation of these statistics are the Nimexe cumulative quarterly data. For the main products (beef and veal, pigmeat, sheepmeat, horsemeat, butter, milk powder, eggs), these external trade statistics are shown alongside the data on production and intervention stocks; this combination leads to the presentation of simplified 'Eurostat balance sheets', which do not necessarily tally with the annual supply balance sheets compiled by the Member States, but which should help to provide more frequent (quarterly) and more rapid (four to five months after the end of the quarter under review) information on the balance between supply and demand.

Finally, the content of Part 5 varies, and comprises annual supply balance sheets, results of surveys on the numbers or the structure of cattle and pig herds, annual milk statistics, structure of dairies, structure and use of hatcheries, comments and forecasts, etc.

Note: For all the series published, retrospective data are available in Eurostat's Cronos data bank and can be supplied on request in the form of print-outs or magnetic tapes; similarly, recent updatings of the basic monthly series can be sent each month on request. (5. 2. 1/83)

AGRICULTURAL PRICE STATISTICS (THEME 5)

(on microfiches) (DE/EN/FR/IT)

Price for the complete series BFR 1 000, per microfiche BFR 75

The microfiches for agricultural prices contain for the 10 Community Member States the monthly and annual 'selling prices of crop products', 'selling prices of animal products' and 'purchase prices of the means of agricultural production'. The series have been extracted from those stored in the Cronos data bank (PACO domain). Monthly prices cover the past two years; where no monthly series exist, annual prices are shown for 1971 to 1982 inclusive. The prices are expressed in national currencies and in ECU.

The selling prices of crop and animal products comprise prices for the major products at the agricultural producer level, and also the prices of a number of processed products of the food industry. The purchase prices of the means of agricultural production relate to the prices paid by farmers for the purchase of feedingstuffs, fertilizers, fuels, seeds and plant protection products. (5. 3. 4/83)

NIMEXE — EXTERNAL TRADE STATISTICS — COUNTRIES-PRODUCTS SCE 2112 (THEME 6)

Microfiches (DE/FR), approximately 250 per quarter, price BFR 8 000 per quarter

External trade statistics of the European Community and of the Member States in the Nimexe nomenclature; arranged in order of country by product to 6, 4 and 2 digits. (6. 2. 4/83)

PUBLICATIONS

NIMEXE — EXTERNAL TRADE STATISTICS — PRODUCTS-COUNTRIES SCE 1111 (THEME 6)

Microfiches (DE/FR), approximately 176 per quarter, price BFR 4 000 per quarter

External trade statistics of the European Community and of the Member States in the Nimexe nomenclature; arranged in order of product by country to 6 digits. (6. 2. 5/83)

► Half-yearly bulletins

HOURLY EARNINGS — HOURS OF WORK (THEME 3)

ISSN 0378-3596 (DA/DE/GR/EN/FR/IT/NL)

Format A 4, approximately 290 pages, price BFR 860 annual subscription

This publication which is updated every six months contains harmonized data on manual workers' hourly earnings and weekly hours of work in industry, and non-manual workers' monthly earnings in industry, trade, banking and insurance. These data are broken down by industrial groups according to NACE, by sex (earnings only) and, for certain countries, by region.

In addition, this publication shows, for manual and non-manual workers combined and broken down by industrial groups, some data on total hourly labour costs in industry (principal results of the three-yearly Community surveys and updated estimates for intermediate years). (3. 6. 1/83)

EC AGRICULTURAL PRICE INDICES (OUTPUT AND INPUT) (THEME 5)

ISSN 0250-5967 (DE/EN/FR/IT)

Format A 4, approximately 120 pages, price BFR 860 annual subscription

This publication shows the trend of the monthly EC indices of producer prices of agricultural products and of purchase prices of the means of agricultural production during the latest 13 months for EUR 9, EUR 10 and each of the 10 Member States. Each of the price indices is the result of a base-weighted (Laspeyres) calculation using value-weights determined for the base year 1975 for a fixed basket of agricultural products (output index) or of a selection of goods and services (input index). 1975 also serves as the reference year. Number 1/1983 of this publication shows in addition the trend of the annual price indices from 1973 to 1982. A comment on the most recent evolution together with a presentation of rates of change and some graphics are to be found before the index tables. A weighting schema by countries and products is also included.

General information

The publications of the Statistical Office of the European Communities (Eurostat) are grouped according to 'themes' and 'sub-themes', of which the reader will find a classification overleaf.

Eurostat News provides the public with a regular flow of information on the progress of the SOEC publications programme. The presentation is such that it is clear which publications have been **published** in the course of the last quarter and which are about **to be published** and will thus be available in the near future. There follows a list of 'periodicals', indicating their frequency of publication (monthly, quarterly, half-yearly).

The information provided on each publication is as follows: 'theme' to which the work belongs, title of volume, international classification number (ISBN or ISSN), languages in which available, format, number of pages, price and brief summary of content. For practical reasons, the *price* is given in only one currency, the BFR (Belgian franc) which is the legal tender in the country of publication (the Grand Duchy of Luxembourg). The price thus indicated applies when orders are placed directly with the **Office for Official Publications of the European Communities** (L-2985 Luxembourg, 5 rue du Commerce — postal cheque account (CCP) 19 190-81 — bank

current account BIL 8-109/6003/300) and serves as a rough guide to the prices in the various national currencies in the event of purchase from the sales offices which are listed on the third page of the cover. The languages in which the publications are available

are shown by the following abbreviations: M = multilingual, i.e. in all the official languages of the European Communities, DA = Danish, DE = German, GR = Greek, EN = English, FR = French, IT = Italian, NL = Dutch.

Users who wish to order publications directly from the Publications Office (or to take out subscriptions) will find an **order form** on the last page of *Eurostat News*. It need only be detached, legibly completed and sent to the address indicated.

Further information may be obtained from the staff responsible for *Eurostat News* (at the address given on the first page of this issue) or from Division C-4 — Dissemination of information (Jean Monnet Building, L-2920 Luxembourg — Tel. 43 01-20 38 — Telex Comeur Lu 3423).

Officials of the Commission of the European Communities who are *employed in Brussels* should apply to the Eurostat 'Data Shop' (U.P.B. Building, 120 Rue de la Loi, Brussels — Office 4/11, Tel. 5 15 04).
