Manuskript afsluttet den 23. juni 1980

Manuscript completed 23 June 1980

Manoscritto terminato il 23 giugno 1980

**Arbejdsløshed**

I sæsonkorrigerede tal fortsatte stigningen i arbejdsløsheden inden for Det europæiske Fællesskab i perioden mellem slutningen af april og slutningen af maj 1980, selv om der i bruttotal var tale om en nedgang på mere end 140 000 personer svarende til 2,3% af antallet af arbejdsløse. Ligeledes udregnet i bruttotal ligger nedgangen i arbejdsløsheden i Luxembourg (12,8%), Danmark (8,1%) og i Vesttyskland (7,1%) betydeligt over EF-gennemsnittet. Et fald i arbejdsløshedstallene kunne ligeledes registreres i Frankrig (2,7%), Italien og Belgien (1,2%) og Det forenede Kongerige (0,9%). I modsætning til den faldende tendens i arbejdsløshedstallene for de fleste medlemsstater forværredes situationen på arbejdsmarkedet i Nederlandene og Irland (+1,6% i begge medlemsstater).

Imidlertid steg antallet af registrerede arbejdsløse i Fællesskabet med 7,7% i forhold til maj 1979 mod en stigning over 12 måneder på 5,4% i april måned. Blandt medlemsstaterne er det kun Luxembourg (6,9%) og Vesttyskland (1,1%), som har haft en nedgang i arbejdsløsheden i forhold til den tilsvarende måned forrige år.

**Indekset for industriproduktionen : Faldende tendens i stigningen i industriproduktionen for EUR 9**

I sæsonkorrigerede tal er indekset for industriproduktionen steget med 1% i forhold til februar måned. Imidlertid udviser stigningstakten på kort sigt en faldende tendens, som hovedsagelig skyldes afmatningen inden for investeringsgodeindustrien. Inden for mellemproduktindustrien er tendenserne usikre, men i hvert fald er tallene betydeligt lavere end i perioderne med økonomisk vækst. Derimod har stigningstakten på kort sigt for forbrugsgodeindustrien i de seneste måneder været større end i andet kvartal 1979.

I de enkelte medlemsstater faldt stigningstakten for industriproduktionen i marts måned og var negativ i Det forenede Kongerige og Danmark, mens den i Tyskland og i Luxembourg var aftagende, men dog positiv. Den forblev næsten uændret i Frankrig og Italien og viste en stigning i Nederlandene. I næsten alle landene med undtagelse af Luxembourg var de allersæneste resultater særlig ugunstige for investeringsgodeindustrien med en kraftig aktivitetsnedgang, som i adskillige tilfælde gav en negativ vækst. Inden for andre sektorer som f. eks. mellemproduktindustrien var produktionen relativt stabil i Tyskland, Frankrig, Luxembourg og Italien, og negative stigningstakter på kort sigt registreredes i Det forenede Kongerige og Danmark. For forbrugsgodernes vedkommende var tendensen meget gunstig i Frankrig, Italien og Danmark, men derimod vigende i Tyskland og Det forenede Kongerige.

**Samhandelen inden for Fællesskabet (\*) : Stabil udvikling**

I løbet af 1. kvartal af 1980 skete der en værdimæssig stigning i samhandelen inden for Fællesskabet på ca. 26% i forhold til samme periode i 1979, hvorved handelen nåede op på 19,6 Mrd ERE. Den største stigning kunne registreres i Det forenede Kongerige (eksporten 51% og importen 38%) og i Italien (henholdsvis 22% og 35%).

I forhold til den foregående måned, nemlig februar, var Danmark det land, som kunne notere den største stigning i importen fra sine EF-handlespartnere (12%), mens der derimod skete en ret betydelig nedgang i den tyske import (3%). Hvad eksporten angår, var det derimod Tyskland, som registrerede den største fremgang i eksporten til andre medlemsstater (6%), efterfulgt af Italien (5%) og Frankrig (4%).

Som helled betragtet udviste handelsbalancen for samhandelen inden for Fællesskabet et stort overskud for Tyskland (779 Mio ERE, dækningsgrad 114%) og Nederlandene (668 mio ERE, dækningsgrad 124%), mens den udviste et underskud for Frankrig (354 og 92%) og Italien (347 og 88%).

**Fællesskabets samhandel med tredjelande (\*) : Voksene underskud på handelsbalancen**

Fællesskabets handelsunderskud bliver stadig større; alene i marts måned udgjorde det 3,5 Mrd ERE, og 12,4 Mrd for årets første kvartal. Med det forventede underskud for BLØU, hvorom der ikke foreligger oplysninger, betyder det, at underskuddet allerede efter 3 måneder er større, end det var efter 9 måneder forrige år.

Det største underskud blandt medlemsstaterne blev registreret i Frankrig (3,6 Mrd ERE), Italien (2,8 Mrd ERE) og Nederlandene (2,6 Mrd). Imidlertid skal det bemærkes, at det for første gang siden årets begyndelse i marts måned lykkedes Tyskland at skabe balance i handelen med tredjelande, idet der registreredes et mindre overskud (21 Mio ERE).

Denne alvorlige forringelse af Fællesskabets handelsbalance skyldes, at importen (+41%) steg næsten dobbelt så hurtigt som eksporten (+24%) i perioden mellem 1. kvartal 1979 og 1. kvartal 1980. Især skal nævnes, at Italiens eksport til tredjelande kun steg med 14% i værdi, mens importen steg med mere end 40%. For Tysklands vedkommende var stigningerne på henholdsvis 17 og 41% og for Frankrig 22 og 48%. Det eneste land, som registrerede en gunstigere tendens i eksporten (47%) end i importen (40%), var Det forenede Kongerige.

**Forbrugerpriserne i april 1980**

Forbrugerprisindekset for hele EF steg med 1,7% fra marts til april 1980. Der registreredes en kraftig stigning i Det forenede Kongerige (3,4%), hvoraf en tredjedel skyldtes afgiftforhøjelserne på spiritus, tobak og olie og en tredjedel de lokale myndigheders årlige forhøjelse af huslejer og afgifter.

Stigningerne var også store i Italien (1,6%), Frankrig (1,2%) og Nederlandene (1,0%).

Stigningerne var mere moderate i Danmark (0,7%), Vesttyskland (0,6%) og Luxembourg (0,6%), mens Belgien igen har kunnet registrere en meget lille stigning (0,1%).

Over 12 måneder udgør stigningen for EUR 9 14,8% og har således været jævn siden midten af sidste år; den er stort set lig med prisstigningstakten i USA.

**Penge og finanser : Rentefald i USA og svækkelse af dollaren**

Som følge af den svækkede økonomi slækkede den amerikanske Federal Reserve Board kreditrestriktionerne. Ligeledes nedsatte den diskontoen med 1% til 12% efter de amerikanske bankers nedsættelse af Prime rate til 14%. Rentefaldet i USA i forbindelse med det fortsat høje renteniveau i andre lande medførte et stærkt pres mod dollaren, som faldt til den laveste effektive kurs (vekselkursen vejret efter udenrigshandlestallene) inden for det sidste 1½ år.

(\*) Uden BLØU, hvis tal ikke foreligger.

**Unemployment**

Between the end of April and the end of May 1980, the seasonally adjusted figure for the number of unemployed in the European Community continued to increase, although in unadjusted figures the number fell by more than 140 000, which represents 2.3% of the total number of unemployed. Again in unadjusted data, the reductions noted in Luxembourg (-12.8%), Denmark (-8.1%) and the Federal Republic of Germany (-7.1%) were well above the Community average. A reduction in unemployment was also noted in the following Member States: France (-2.7%), Italy and Belgium (-1.2%) and the United Kingdom (-0.9%). While the trend in most Member States was thus towards a lower level of unemployment, in the Netherlands and Ireland the labour market situation grew slightly worse (+1.6% in both countries). However, the number of registered unemployed in the Community was 7.7% up on May 1979 — compared with a 12-month increase of 5.4% in April. Of the Member States, only Luxembourg (-6.9%) and the F.R. of Germany (-1.1%) showed a lower level of unemployment than one year previously.

**Index of industrial production: weakening in EUR 9 industrial production growth trends**

The index of industrial production for the European Community, adjusted for seasonal variations, increased by 1% over the figure recorded in February. However, the development of the short-term growth rate points to a downward trend due primarily to the weakening in the capital goods industries. In the intermediate goods sector the trends are uncertain but are at all events well below those observed in periods of economic growth. Conversely, the short-term growth rates in the industries producing consumer goods have for several months been higher than in the second quarter of 1979.

At the Member State level, industrial production growth rates fell in March and became negative in the United Kingdom and Denmark, and weakened but remained positive in Germany and Luxembourg. They remained roughly stable in France and Italy, and improved in the Netherlands. In nearly all countries (except Luxembourg) the latest results for the capital goods sector are especially unfavourable, with sharp downturns in activity often leading to negative growth. Elsewhere, production in the intermediate goods industries appears to be reasonably firmly based in Germany, France, Luxembourg and Italy, but negative short-term growth rates were recorded in the United Kingdom and Denmark. In the consumer goods sector, production trends were quite favourable in France, Italy and Denmark, but weak in Germany and the United Kingdom.

**Intra-Community trade (\*): trend maintained**

In the first quarter of 1980, trade between the Member States of the Community increased, in value terms, by approximately 26% over the same period in 1979, rising to 19 600 million ECU. The most appreciable increases were in the United Kingdom (+51% of exports and +38% of imports) and Italy (+22% and +35% respectively).

Compared with the previous month (February) the country with the greatest increase in purchases from other Community countries was Denmark (+12%), while on the other hand there was a marked slackening in German imports (-3%). But in exports, Germany was the country with the largest increase in sales to other Member States (+6%), followed by Italy (+5%) and France (+4%).

On the whole the balance of trade in intra-Community transactions was particularly positive for Germany (+779 million ECU, 114% coverage) and the Netherlands (+668 million ECU, 124% coverage), whereas it showed a deficit for France (-354 million and 92%) and Italy (-347 million and 88%).

**Community external trade (\*): increasingly serious deficit**

The Community's trade deficit has continued to increase: -3 500 million ECU in March alone and -12 400 million in the first quarter of the year. This means that with the anticipated deficit of the BLEU, for which no data are available, the negative balance is already higher in three months than it was in nine months last year.

Among the Member States, the largest deficits were recorded by France (-3 600 million ECU), Italy (-2 800 million ECU) and the Netherlands (-2 600 million). However, it should be noted that for the first time since the beginning of the year, Germany succeeded in March 1980 in restoring equilibrium in its trade with non-member countries, and actually had a very slight surplus (+21 million ECU).

This serious deterioration in the balance of Community trade is due to the fact that imports (+41%) have increased almost twice as fast as exports (+24%) between the first three months of 1980 and the same period in 1979.

In particular, Italy's sales to non-member countries increased by only 14% in value terms, whereas its imports increased by over 40%. The increases for Germany were 17 and 41% respectively, and for France 22 and 48%. The only country which showed a more favourable trend in exports (+47%) than in imports (+40%) was the United Kingdom.

**Consumer prices in April 1980**

The consumer price index for the EC as a whole rose by 1.7% from March to April 1980.

A very big increase was recorded in the United Kingdom (3.4%), one third of which was attributable to increases in duties on alcohol, tobacco and petrol and another one third was due to the annual increases in local authority rents and domestic rates.

Strong increases were also reported by Italy (1.6%) and the Netherlands (1.0%).

Rises were more moderate in Denmark (0.7%), Germany (F.R.) and Luxembourg (both 0.6%) whilst Belgium again recorded only a very small increase (0.1%).

The rise over 12 months for EUR 9 reached 14.8%, due to regular increases since the middle of last year and an almost identical rise to that of the USA.

**Finance: about-turn in interest rates in the USA and weakness of the dollar**

The US Federal Reserve Board, dealing with a weakened economy, has reduced its credit control. Similarly, after the decline of the American banks' prime rate to 14%, it reduced its discount rate by one point to 12%. The fall in interest rates in the USA, contrasting with the maintenance of high rates everywhere else, has led to some strain on the dollar, which has fallen to its lowest effective exchange rate (exchange rates weighted with commercial exchange values) in the past 18 months.

(\*) Excluding the BLEU for which no data are available.

**Disoccupazione**

Tra fine aprile e fine maggio del 1980 il numero dei disoccupati, valutato sulla base dei dati corretti delle variazioni stagionali, ha continuato ad aumentare nella Comunità europea; in dati grezzi, si osserva invece una diminuzione di oltre 140 000 unità, pari al 2,3% del totale dei disoccupati. Sempre sulla base dei dati grezzi, le diminuzioni osservate nel Lussemburgo (-12,8%), in Danimarca (-8,1%) e nella Repubblica federale di Germania (-7,1%) superano decisamente la media comunitaria. Un regresso della disoccupazione si è inoltre osservato in Francia (-2,7%), in Italia e in Belgio (-1,2%) e nel Regno Unito (-0,9%), mentre, contrariamente alla tendenza discendente osservata nella maggior parte degli Stati membri, la situazione sul mercato del lavoro è peggiorata nei Paesi Bassi e in Irlanda (+1,6% in ciascun paese).

Tuttavia, su base annua, e cioè rispetto a maggio del 1979, il numero dei disoccupati iscritti nella Comunità è aumentato del 7,7% (contro un corrispondente aumento del 5,4% in aprile); di tutti gli Stati membri, soltanto il Lussemburgo (-6,9%) e la Repubblica federale di Germania (-1,1%) hanno registrato un regresso della disoccupazione rispetto al mese corrispondente dell'anno scorso.

**Indice della produzione industriale : flessione delle tendenze nello sviluppo della produzione industriale EUR 9**

L'indice destagionalizzato della produzione industriale è salito dell'1% rispetto al mese di febbraio. Tuttavia, l'andamento del tasso di sviluppo a breve termine indica una tendenza regressiva, dovuta principalmente alla flessione dell'attività delle branche produttrici di beni d'investimento. Nel settore dei beni intermedi, le tendenze osservate sono invertite, ma in ogni caso nettamente inferiori a quelle dei periodi di espansione economica. Nelle industrie produttrici di beni di consumo, i tassi di sviluppo a breve termine si collocano invece, da alcuni mesi, ad un livello più elevato che nel secondo trimestre del 1979.

Per Stati membri, i tassi di crescita della produzione industriale sono scesi nel mese di marzo, fino a risultare negativi, nel Regno Unito e in Danimarca, restando invece positivi, ma più deboli, in Germania e nel Lussemburgo. In Francia e in Italia si osserva una certa stabilità dei tassi di sviluppo, aumentati invece nei Paesi Bassi. In quasi tutti i paesi (ad eccezione del Lussemburgo) i risultati più recenti sono stati particolarmente sfavorevoli nel settore dei beni d'investimento, con netti rallentamenti dell'attività, che comportano spesso uno sviluppo negativo. Nel settore dei beni intermedi la produzione è risultata invece abbastanza stabile in Germania, in Francia, nel Lussemburgo e in Italia, mentre nel Regno Unito e in Danimarca si sono registrati tassi di sviluppo a breve termine negativi. Per i beni di consumo, le tendenze della produzione sono state decisamente favorevoli in Francia, in Italia e in Danimarca, ma si sono indebolite in Germania e nel Regno Unito.

**Commercio intracomunitario (\*) : tendenza sostenuta**

Nel 1° trimestre del 1980, gli scambi tra i paesi della Comunità sono aumentati, in valore, del 26% circa rispetto allo stesso periodo del 1979, arrivando così a 19,6 miliardi di UCE. Gli aumenti più sensibili sono stati registrati dal Regno Unito (+51% per le esportazioni e +38% per le importazioni) e dall'Italia (rispettivamente +22% e +35%).

Su base mensile (e cioè rispetto a febbraio) il paese che ha aumentato di più i propri acquisti negli altri paesi della Comunità è la Danimarca (+12%); mentre, inversamente, si osserva un rallentamento di una certa importanza nelle importazioni tedesche (-3%). Per le esportazioni, invece, è la Germania a registrare la maggiore espansione delle vendite negli altri paesi membri (+6%), seguita dall'Italia (+5%) e dalla Francia (+4%).

Nel complesso, la bilancia commerciale degli scambi intracomunitari è stata fortemente positiva per la Germania (+779 milioni di UCE, con un tasso di copertura del 114%) e per i Paesi Bassi (+668 milioni di UCE, con un tasso di copertura del 124%), e negativa per la Francia (-354 milioni di UCE e 92%) e l'Italia (-347 milioni di UCE e 88%).

**Commercio estero della Comunità (\*) : sempre più grave il disavanzo della bilancia**

Il disavanzo della bilancia commerciale della Comunità continua ad aumentare e corrisponde a ben 3,5 miliardi di UCE per il solo mese di marzo e a 12,4 miliardi per il 1° trimestre dell'anno. Ciò significa che, una volta aggiunto il deficit prevedibile dell'UEBL (per la quale non si dispone di informazioni), il saldo negativo ha già superato in soli tre mesi quello di 9 mesi dell'anno scorso.

Fra i paesi membri, il maggior disavanzo è registrato dalla Francia (-3,6 miliardi di UCE), dall'Italia (-2,8 miliardi di UCE) e dai Paesi Bassi (-2,6 miliardi). Va osservato tuttavia che per la prima volta dall'inizio dell'anno la Germania è riuscita, nel marzo 1980, a riequilibrare i propri scambi con i paesi terzi, facendo registrare un esiguo saldo attivo (+21 milioni di UCE). Questo grave peggioramento della bilancia commerciale comunitaria è dovuto al fatto che nei primi tre mesi del 1980 le importazioni sono aumentate, rispetto al periodo corrispondente del 1979, ad un ritmo quasi doppio di quello delle esportazioni (+41% e, rispettivamente, +24%). In particolare, le vendite dell'Italia ai paesi terzi sono aumentate, in valore, soltanto del 14%, contro un incremento di oltre il 40% degli acquisti italiani al di fuori della Comunità. Per la Germania, gli aumenti sono stati rispettivamente del 17 e 41%, per la Francia del 22 e 48%. Soltanto il Regno Unito ha fatto registrare una tendenza più favorevole nelle esportazioni (+47%) che nelle importazioni (+40%).

**I prezzi al consumo nell'aprile del 1980**

Tra marzo e aprile del 1980, l'indice dei prezzi al consumo per il complesso della CE è aumentato dell'1,7%.

Un aumento molto rilevante è stato registrato nel Regno Unito (3,4%) ed è dovuto per un terzo agli aumenti delle imposte sull'alcool, sul tabacco e sul petrolio, e per un altro terzo agli aumenti annuali degli affitti e delle spese locative applicati dagli enti locali.

Forti aumenti si osservano inoltre in Italia (1,6%), in Francia (1,2%) e nei Paesi Bassi (1,0%), aumenti più moderati in Danimarca (0,7%), nella R.F. di Germania (0,6%) e nel Lussemburgo (0,6%), mentre il Belgio torna ad accusare un tasso d'inflazione molto moderato (0,1%).

L'aumento su 12 mesi per il complesso EUR 9 risulta del 14,8% : si tratta di un aumento regolare dalla metà dell'anno scorso, ad un tasso praticamente identico a quello degli Stati Uniti d'America.

**Finanze : capovolgimento della tendenza dei tassi d'interesse negli USA e debolezza del dollaro**

Di fronte ad un'economia indebolita, il Federal Reserve Board degli Stati Uniti ha allentato la stretta creditizia e, dopo la diminuzione al 14% del « prime rate » praticato dalle banche americane, ha ridotto di un punto il proprio tasso di sconto, portandolo al 12%. La caduta dei tassi d'interesse negli Stati Uniti, che restavano invece elevati in tutti gli altri paesi, ha provocato tensioni sul dollaro, facendone scendere il tasso di cambio effettivo (tassi di cambio ponderati in base al valore degli scambi commerciali) al livello più basso registrato da un anno e mezzo a questa parte.

(\*) Esclusa l'Unione economica belgo-lussemburghese, i cui dati non sono disponibili.

Denne publikation omfatter to dele: den ene indeholder »fællesskabstabeller« og den anden »tabeller efter land«.

I »fællesskabstabellerne« er samlet de vigtigste indikatorer for Fællesskabets og for hver medlemsstats økonomiske udvikling på kort sigt, uddybet med nogle strukturelle oplysninger for året 1975. Denne del, som skal muliggøre sammenligninger mellem landene, indeholder der for kun af EUROSTAT harmoniserede tal, på grundlag af fælles kriterier, hvilket forklarer visse uoverensstemmelser med de nationale tal.

Rækkerne er korrigerede for sæsonvariationer ved hjælp af EUROSTAT's »Dainties«-metode. **De mest aktuelle tal er foreløbige og i visse tilfælde direkte skønnede af EUROSTAT.**

Som indikator for verdenskonjunkturudviklingen indeholder »fællesskabstabellerne« en søjle for USA.

I »tabellerne efter land« er for hvert land udvalgt de for det pågældende land mest anvendte konjunkturrelle indikatorer; det drejer sig om nationale rækker, i overensstemmelse med nationale kriterier og sæsonkorrigerede efter nationale metoder. I denne del er der ud

over Fællesskabets ni medlemslande medtaget kandidatlandene Spanien, Grækenland og Portugal, såvel som USA og Japan.

For alle rækkerne findes de historiske tal (årlege, kvartals- og månedstal) i EUROSTAT's databank CRONOS. Almindeligvis går tallene tilbage til 1960, og kan oplyses på anmodning.

Denne publikation indeholder kun et yderst minimalt antal metodologiske bemærkninger. Oplysninger om definitioner, metoder, fællesskabstilpasninger og kilder for hver enkelt række vil blive givet i en specialudgave af »EUROSTATISTIK«, hvori de statistiske angivelseres definitioner, metoder, tilpasninger og kilder vil blive beskrevet.

Der udkommer to udgaver af »EUROSTATISTIK« hver måned. Den ene affattet på dansk, engelsk og italiensk leveres til trykning den fjerde tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Den anden affattet på tysk, fransk og nederlandsk leveres til trykning den anden tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Hver udgave indeholder de mest aktuelle tal til disposition den dag leveringen til trykning finder sted.

## PREFACE

EN

This bulletin is in two parts: 'Community Tables' and 'Country Tables'.

The Community Tables contain the main indicators useful for following short-term economic developments in the Community as a whole and in the Member States, supplemented by a certain amount of structural data relating to 1975. This part of the bulletin is intended to make possible real comparisons between countries and therefore only contains data which has been harmonized by EUROSTAT on the basis of common criteria, this explains many of the differences from national series.

Seasonal adjustment of the series has been done with EUROSTAT's own method, 'Dainties'. **The most recent data are provisional and in some cases estimated by EUROSTAT.**

Finally the Community Tables include a column for the USA as an indicator of changes in the world economy.

The Country Tables contain a selection of the economic indicators most often used in each country. They are national series based on

the definitions of the country concerned and seasonally adjusted by the country. In addition to the nine Community countries this section includes the three candidate countries (Spain, Greece and Portugal) the USA and Japan.

For all series, historical data (annual, quarterly or monthly) is available in EUROSTAT's CRONOS data bank, going back in most cases to 1960. This can be supplied on request.

This publication contains the absolute minimum of methodological notes. Details of definitions, methods, Community adjustments and sources of each series will be given in a special edition of 'Eurostatistics'.

Two versions of 'EUROSTATISTICS' come out every month. The first in Danish, English and Italian goes to the printers the fourth Tuesday of the month and will be distributed in the national capitals the following Monday. The second in German, French and Dutch goes to the printers the second Tuesday of the month and will be distributed in the national capitals the following Monday. Each version will contain the latest figures available when it went to press.

## AVVERTENZA

IT

Il presente bollettino consta di 2 parti: l'una ha per oggetto alcune « tavole comunitarie », l'altra riguarda alcune « tavole per paese ».

Nelle tavole « comunitarie » si trovano riuniti i principali indicatori che consentono di seguire l'evoluzione di breve periodo dell'economia comunitaria nel suo complesso e in ogni singolo Stato membro, completati da alcuni dati strutturali relativi al 1975. Questa parte, che si prefigge di consentire di stabilire confronti reali fra paesi, contiene soltanto dati armonizzati dall'EUROSTAT in base a criteri comuni, il che spiega l'esistenza di certe differenze rispetto ai dati nazionali.

Le variazioni stagionali delle serie sono eliminate con il metodo « Dainties » dell'EUROSTAT. **I dati più recenti sono provvisori e, a volte direttamente stimati da EUROSTAT.**

Nelle tavole comunitarie figura una colonna relativa agli Stati Uniti d'America a titolo di indicatore dell'evoluzione della congiuntura mondiale.

Nelle « tavole per paesi » si riporta una selezione degli indicatori congiunturali più correntemente adoperati in ogni paese; si tratta di serie nazionali, corrispondenti ai criteri nazionali e « destagionaliz-

zate » per mezzo dei metodi nazionali. In questa parte sono presi in considerazione oltre ai 9 paesi membri della Comunità, i paesi candidati all'adesione: Grecia, Portogallo, Spagna, nonché gli Stati Uniti d'America e il Giappone.

Per tutte le serie, presso il sistema CRONOS dell'EUROSTAT sono disponibili dati storici (annui, trimestrali o mensili) risalenti in generale al 1960, i quali possono essere forniti su richiesta.

La presente pubblicazione contiene soltanto annotazioni metodologiche ridotte allo stretto minimo. Le informazioni relative alle definizioni, ai metodi, agli aggiornamenti comunitari e alle fonti di ogni serie saranno riportate in un fascicolo speciale (ad hoc) di EUROSTATISTICHE avente per oggetto le definizioni, i metodi, gli aggiornamenti e le fonti dei dati statistici.

Ogni mese vengono pubblicate due versioni di « EUROSTATISTICHE ». La prima redatta in danese, inglese e italiano, che va in stampa il 4° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo; la seconda redatta in tedesco, francese e olandese, che va in stampa il 2° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo. Ogni versione riporta le ultime cifre disponibili il giorno della stampa

Die deutsche Fassung dieses Bulletins wird am zweiten Dienstag jeden Monats in Druck gegeben.

La version française de ce bulletin est mise sous presse le second mardi de chaque mois.

De Nederlandse versie van dit bulletin gaat de tweede dinsdag van elke maand ter perse.

(1) Alcuni dati più dettagliati per branca sono riportati nel bollettino « Indicatori congiunturali dell'industria ».

(2) I dati contenuti in questa parte del bollettino rappresentano i risultati dell'indagine sulla congiuntura presso i capi di impresa delle Comunità. Alcuni dati più particolari figurano in « Economia europea ».

(3) Alcuni dati del commercio estero più dettagliati ed espressi in UCE sono riportati nel « Bollettino mensile del commercio estero ».

(4) Consumi finali delle famiglie.

 12 Animalske landbrugsprodukter : mængdeindeks.  
 21 Konjunkturbarometer for industriproduktionen: Nettotal (tallene for tidligere kvartaler angiver en vurdering af det faktiske produktionsforløb, mens tallet for det sidste kvartal udtrykker forventningerne til dette kvartal).  
 22 Mængdeindeks for omsætningen af egne varer og tjenester i industrien i alt ekskl. værfte.  
 23 Mængdeindeks for omsætningen af egne varer og tjenester i mellemproduktindustrien.  
 24 Mængdeindeks for omsætningen af egne varer og tjenester i investeringsgodeindustrien ekskl. værfte.
- 25 Mængdeindeks for omsætningen af egne varer og tjenester i forbrugsgodeindustrien.  
 34 Antal påbegyndte lejligheder.  
 39 Indeks for ordreindgang i industrien i alt ekskl. værfte.  
 41 Import af varer (cif) i alt — sæsonkorrigeret.  
 42 Eksport af varer (fob) i alt — sæsonkorrigeret.  
 43 Handelsbalancen i alt.  
 45 Indeks for enhedsværdier for import af varer.  
 46 Indeks for enhedsværdier for eksport af varer.  
 47 Bytteforholdet i udenrigshandelen.  
 53 Værdiindeks for detailomsætningen — sæsonkorrigeret.  
 54 Mængdeindeks for detailomsætningen — sæsonkorrigeret.  
 62 Nyregistrerede personbiler — sæsonkorrigeret.
- 63 Nyregistrerede vare- og lastbiler samt busser.  
 71 Prisindeks for omsætningen af egne varer og tjenester i industrien i alt ekskl. værfte.  
 77 Råvareprisindeks : 1978-vægte.  
 79 Forbrugerprisindeks.  
 85 Timelønsindeks for industriens arbejdere.  
 89 Pengeforsyningen (M2).  
 92 International likviditet (brutto).  
 96 Betalingsbalancens løbende poster i alt.  
 97 Betalingsbalancens kapitalposter i alt.

## UNITED STATES

- 02 Gross national product in constant (1972) dollars.  
 03 Gross national product : implicit price deflators — seasonally adjusted.  
 06 Labour force : unemployed — seasonally adjusted.  
 07 Labour force : help wanted advertising — seasonally adjusted.  
 22 Industrial production — seasonally adjusted.  
 23 Industrial production : intermediate products — seasonally adjusted.  
 24 Industrial production : equipment — seasonally adjusted.  
 25 Industrial production : consumer goods — seasonally adjusted.  
 28 Industrial production : motor vehicles and parts — seasonally adjusted.  
 38 Housing starts and permits : total privately owned — seasonally adjusted.
- 39 Manufacturers' sales, inventories : new orders, net — seasonally adjusted.  
 41 Foreign trade : general imports, total — seasonally adjusted.  
 42 Foreign trade : exports — seasonally adjusted.  
 43 Foreign trade : trade balance — seasonally adjusted.  
 45 Foreign trade : imports — unit value.  
 46 Foreign trade : exports — unit value.  
 47 Foreign trade : terms of trade.  
 54 Domestic trade : retail trade — estimated sales — seasonally adjusted.  
 63 Transportation equipment : trucks and buses — registrations.  
 79 Commodity prices : consumer prices (CPI-U).
- 87 Federal government budget surplus (+) or deficit (-).  
 89 Money supply.  
 92 Gross official reserves.  
 95 Effective exchange rate of the dollar.  
 96 Balance on current account — seasonally adjusted.  
 98 US assets abroad reserve assets excluded — seasonally adjusted.  
 99 Foreign assets — foreign official excluded — seasonally adjusted.

Abonnementet er årligt og løber fra 1. januar til 31. december hvert år.

The annual subscription runs from 1 January to 31 December of each year.

Gli abbonamenti sono annuali e il loro periodo di validità va dal 1° gennaio al 31 dicembre di ciascun anno.

Betaling kan kun ske til agenturerne i landene nævnt på omslagets side 3.

Payments to be made only to the agents in the countries listed on page 3 of the cover.

I versamenti devono essere indirizzati agli uffici di vendita indicati a pag. 3 della copertina

Priserne dækker forsendelse ad land- eller søvej; agenturerne giver oplysning om priserne for luftforsendelse.

These are surface mail rates; for air subscription rates please apply to the agents.

I prezzi non comprendono le spese di spedizione per posta aerea; per le condizioni di abbonamento in caso di spedizione per posta aerea, si consultino gli uffici di vendita.
