COUNCIL OF THE EUROPEAN COMMUNITIES

1. Composition

The Council consists of representatives of the Member States. Each Government delegates one of its members to the Council, the composition of which may thus vary according to the subject before it. The office of President is held for a term of six months by each member of the Council in turn, in the following order : Belgium, Denmark, Germany, Greece, France, Ireland, Italy, Luxembourg, Netherlands, United Kingdom. The Council meets when convened on the initiative of the President or at the request of one of its members or of the Commission.

2. Powers

Following the merger of the institutions of the three European Communities, which took effect in 1967, a single Council took the place of the Special Council of Ministers of the European Coal and Steel Community and the Councils of the European Economic Community and Euratom. It exercises the powers and jurisdiction conferred on those institutions in accordance with the provisions of the Treaties establishing the European Coal and Steel Community, the European Economic Community and the European Atomic Energy Community, and of the so-called «Merger» Treaty of 1965 establishing a single Council and a single Commission of the European Communities, of the 1972 Treaty concerning the accession of Denmark, Ireland and the United Kingdom, and of the 1979 Treaty concerning the accession of Greece.

In accordance with the Rome Treaties (EEC, Euratom), the Council ensures co-ordination of the general economic policies of the Member States and has power to take decisions. All provisions of general scope or of a certain importance must be adopted by the Council but, except in a limited number of cases, the Council may act only on a proposal from the Commission. The difference between the Rome Treaties and the Paris Treaty (ECSC) is that, according to the former, it is the Council which generally takes the decision, on a proposal from the Commission, while the latter states that decisions are generally to be taken by the High Authority (now the Commission) with the assent of the Council.

3. Method of voting in the Council

The EEC and Euratom Treaties state that, save as otherwise provided, the Council shall act by a majority of its members. In most cases, however, the Treaties stipulate either unanimity or qualified majority.

In calculating a qualified majority, Member States have the number of votes laid down in the Treaties : Germany, France, Italy, United Kingdom : 10; Belgium, Greece, Netherlands : 5; Ireland, Denmark : 3; Luxembourg : 2. Total 63.

When, in pursuance of the Treaties, the Council has to act on a proposal from the Commission, 45 votes are required to attain a qualified majority.

In other cases, 45 votes are necessary, cast by six countries.

CONFERENCE OF REPRESENTATIVES OF THE GOVERNMENTS OF THE MEMBER STATES

The Treaties establishing the EEC, the ECSC and Euratom lay down that certain decisions shall be taken by common accord by the Governments of the Member States.

Thus, for amendments to the EEC Treaty (Article 236 - EEC), the necessary decisions are taken by the Conference of Representatives of the Governments of the Member States.

STANDING COMMITTEE ON EMPLOYMENT

A Council Decision of 14 December 1970 set up a Standing Committee on Employment, with the task of ensuring, in compliance with the Treaties and with due regard for the powers of the institutions and organs of the Communities, that there is continuous dialogue, joint action and consultation between the Council - or, where appropriate, the Representatives of the Governments of the Member States - the Commission and the two sides of industry in order to facilitate co-ordination by the Member States of their employment policies in harmony with the objectives of the Community.

STANDING COMMITTEE ON URANIUM ENRICHMENT (COPENUR)

This Committee was set up by the Council at its meeting on 22 May 1973 and its tasks are to carry out up-to-date studies of the market in enriched uranium, taking into account the production potential and the guarantees afforded by the various suppliers, to collect data on the fundamental technical and economic features of the various technologies, to examine ways and means of promoting the development of the industrial capacity needed by the Community and to facilitate the co-ordination of efforts between the partners concerned.

The Committee is composed of Commission representatives and representatives of public bodies and undertakings interested in the supply of enriched uranium.

EDUCATION COMMITTEE

In their Resolution of 6 June 1974 on co-operation in education, the Ministers for Education, meeting in the Council, set up an Education Committee responsible for working out priority measures in education in conjunction with the Commission.

The Chair of the Committee is held by whichever country is President of the Council.

WORKING PARTIES

Various Working Parties, numbering 52 at present, carry out preparatory work under the aegis of the Council. They meet as required.
