Eurostat hat die Aufgabe, den Informationsbedarf der Kommission und aller am Aufbau des Binnenmarktes Beteiligten mit Hilfe des europäischen statistischen Systems zu decken.

Um der Öffentlichkeit die große Menge an verfügbaren Daten zugänglich zu machen und Benutzern die Orientierung zu erleichtern, werden zwei Arten von Publikationen angeboten: Statistische Dokumente und Veröffentlichungen.

Statistische Dokumente sind für den Fachmann konzipiert und enthalten das ausführliche Datenmaterial: Bezugsdaten, bei denen die Konzepte allgemein bekannt, standardisiert und wissenschaftlich fundiert sind. Diese Daten werden in einer sehr tiefen Gliederung dargeboten. Die Statistischen Dokumente wenden sich an Fachleute, die in der Lage sind, selbständig die benötigten Daten aus der Fülle des dargebotenen Materials auszuwählen. Diese Daten sind in gedruckter Form und/oder auf Diskette, Magnetband, CD-ROM verfügbar. Statistische Dokumente unterscheiden sich auch optisch von anderen Veröffentlichungen durch den mit einer stilisierten Graphik versehenen weißen Einband.

Veröffentlichungen wenden sich an eine ganz bestimmte Zielgruppe, wie zum Beispiel an den Bildungsbereich oder an Entscheidungsträger in Politik und Verwaltung. Sie enthalten ausgewählte und auf die Bedürfnisse einer Zielgruppe abgestellte und kommentierte Informationen. Eurostat übernimmt hier also eine Art Beraterrolle.

Für einen breiteren Benutzerkreis gibt Eurostat Jahrbücher und periodische Veröffentlichungen heraus. Diese enthalten statistische Ergebnisse für eine erste Analyse sowie Hinweise auf weiteres Datenmaterial für vertiefende Untersuchungen. Diese Veröffentlichungen werden in gedruckter Form und in Datenbanken angeboten, die in Menütechnik zugänglich sind.

Um Benutzern die Datensuche zu erleichtern, hat Eurostat Themenkreise, d. h. eine Untergliederung nach Sachgebieten, eingeführt. Daneben sind sowohl die Statistischen Dokumente als auch die Veröffentlichungen in bestimmte Reihen, wie zum Beispiel „Jahrbücher“, „Konjunktur“, „Methoden“, untergliedert, um den Zugriff auf die statistischen Informationen zu erleichtern.

Y. Franchet
Generaldirektor

It is Eurostat's responsibility to use the European statistical system to meet the requirements of the Commission and all parties involved in the development of the single market.

To ensure that the vast quantity of accessible data is made widely available, and to help each user make proper use of this information, Eurostat has set up two main categories of document: statistical documents and publications.

The statistical document is aimed at specialists and provides the most complete sets of data: reference data where the methodology is well-established, standardized, uniform and scientific. These data are presented in great detail. The statistical document is intended for experts who are capable of using their own means to seek out what they require. The information is provided on paper and/or on diskette, magnetic tape, CD-ROM. The white cover sheet bears a stylized motif which distinguishes the statistical document from other publications.

The publications proper tend to be compiled for a well-defined and targeted public, such as educational circles or political and administrative decision-makers. The information in these documents is selected, sorted and annotated to suit the target public. In this instance, therefore, Eurostat works in an advisory capacity.

Where the readership is wider and less well-defined, Eurostat provides the information required for an initial analysis, such as yearbooks and periodicals which contain data permitting more in-depth studies. These publications are available on paper or in videotext databases.

To help the user focus his research, Eurostat has created 'themes', i.e. subject classifications. The statistical documents and publications are listed by series: e.g. yearbooks, short-term trends or methodology in order to facilitate access to the statistical data.

Y. Franchet
Director-General

Pour établir, évaluer ou apprécier les différentes politiques communautaires, la Commission européenne a besoin d'informations.

Eurostat a pour mission, à travers le système statistique européen, de répondre aux besoins de la Commission et de l'ensemble des personnes impliquées dans le développement du marché unique.

Pour mettre à la disposition de tous l'importante quantité de données accessibles et faire en sorte que chacun puisse s'orienter correctement dans cet ensemble, deux grandes catégories de documents ont été créées: les documents statistiques et les publications.

Le document statistique s'adresse aux spécialistes. Il fournit les données les plus complètes: données de référence où la méthodologie est bien connue, standardisée, normalisée et scientifique. Ces données sont présentées à un niveau très détaillé. Le document statistique est destiné aux experts capables de rechercher, par leurs propres moyens, les données requises. Les informations sont alors disponibles sur papier et/ou sur disquette, bande magnétique, CD-ROM. La couverture blanche ornée d'un graphisme stylisé démarque le document statistique des autres publications.

Les publications proprement dites peuvent, elles, être réalisées pour un public bien déterminé, ciblé, par exemple l'enseignement ou les décideurs politiques ou administratifs. Des informations sélectionnées, triées et commentées en fonction de ce public lui sont apportées. Eurostat joue, dès lors, le rôle de conseiller.

Dans le cas d'un public plus large, moins défini, Eurostat procure des éléments nécessaires à une première analyse, les annuaires et les périodiques, dans lesquels figurent les renseignements adéquats pour approfondir l'étude. Ces publications sont présentées sur papier ou dans des banques de données de type vidéotex.

Pour aider l'utilisateur à s'orienter dans ses recherches, Eurostat a créé les thèmes, c'est-à-dire une classification par sujet. Les documents statistiques et les publications sont répertoriés par série — par exemple, annuaire, conjoncture, méthodologie — afin de faciliter l'accès aux informations statistiques.

KOMMENTAR

Reduziertes Wachstum der Industrieproduktion

Das Wachstum der Industrieproduktion hat sich im ersten Halbjahr 1995 gegenüber 1994 deutlich verlangsamt, ist allerdings nicht völlig zum Erliegen gekommen. In der Europäischen Union (EUR 15) betrug die Veränderungsrate im ersten Halbjahr 1995 gegenüber dem gleichen Vorjahreszeitraum 4,7%. Im zweiten Halbjahr 1994 betrug die gleiche Veränderungsrate noch 6,3%. In den Mitgliedsstaaten konnten nur Österreich, Portugal und Schweden das Industriegewachstum steigern. Die Veränderungsdaten des ersten Halbjahrs 1995 zum ersten Halbjahr 1994 im einzelnen (in Klammern jeweils zum Vergleich die entsprechenden Wachstumsraten des 2. Halbjahr 1994 zum 2. Halbjahr 1993): Belgien nicht verfügbar, Dänemark 6,5% (9,6%), Deutschland 2,5% (5,2%), Griechenland 1,2% (1,7%), Spanien 7,7% (8,3%), Frankreich 4,3% (5,1%), Irland (geschätzt) 12,3% (14,2%), Italien 7,0% (9,8%), Luxemburg nicht verfügbar, Niederlande 2,5% (3,5%), Österreich 10,9% (6,3%), Portugal 4,0% (1,0%), Finnland 10,0% (11,4%), Schweden 12,5% (11,9%), Vereinigtes Königreich 3,4% (5,0%). Demnach weisen die drei neuen Mitgliedsstaaten der EU mit die höchsten Wachstumsraten auf. In den USA beträgt die entsprechende Wachstumsrate 4,0% (5,9%), in Japan 5,2% (4,1%).

Betrachtet man den aktuellen Rand der Konjunktorentwicklung im Industriesektor, so stellt man einen schwachen, aber stetigen Anstieg der glatten Komponente des Produktionsindex (Trend)* fest. Für die EU betrug die Änderungsrate des Trends im zweiten Quartal 1995 gegenüber dem ersten Quartal +0,7%. In Deutschland ist diese Wachstumsrate des aktuellen Rands bei +0,8%, in Frankreich +0,8%, in Italien +1,1%, in Vereinigten Königreich +0,4%, in den USA -0,2% und in Japan +0,3%.

Luxemburg, 19.09.1995

* Unter der glatten Komponente (Trend) versteht man die sowohl vom Saisoneinfluß als auch von irregulären Schwankungen bereinigten Reihen.

HINWEISE

1. Systematik der Industriezweige

Die hier veröffentlichten Indizes beziehen sich auf die Industriezweige gemäß der neuen revidierten harmonisierten Systematik der Wirtschaftszweige in den Europäischen Gemeinschaften NACE Rev.1 Abteilung C bis F. Es ist darauf hinzuweisen, daß einige Mitgliedstaaten bislang ihre Konjunkturindikatoren nicht in NACE Rev.1 liefern, so daß Schätzungen notwendig sind, die die Verlässlichkeit der Daten beeinträchtigen.

2. Produktionsindizes

Der Produktionsindex mißt die mengenmäßige Entwicklung der Bruttowertschöpfung (d.h. die Entwicklung zu konstanten Preisen) in der Industrie, wobei die Zusammenfassung der Produktionsbereiche bei der Indexbildung (ebenso wie die Zusammenfassung für einen bestimmten Industriezweig auf Gemeinschaftsebene) durch Gewichtung mit Hilfe der Bruttowertschöpfung zu Faktorkosten erfolgt.

3. Umsatz- und Auftragseingangsindizes

Diese Indizes erfassen die Entwicklung des Umsatzes (einschließlich Exportabsatz) bzw. des Auftragseingangs zu laufenden Werten. Für Griechenland, Spanien und Portugal werden zur Zeit keine Umsatzindizes geliefert. Der Auftragseingangsindex wird darüber hinaus auch von Frankreich nicht berechnet.

4. Erzeugerpreisindex der industriellen Produktion

Dieser Index erfaßt (in der Landeswährung der einzelnen Staaten) die Entwicklung der Verkaufspreise ab Werk für alle Erzeugnisse, die auf den Inlandsmärkten der Mitgliedsstaaten verkauft werden. Da es sich um **Erzeugerpreise** handelt, sind Importe in den Preisindizes nicht enthalten. Die Indizes für die Gemeinschaft (EUR 13, Portugal und Österreich verfügen zur Zeit nicht über Erzeugerpreisindizes) beziehen sich auf die gewichtete Gesamtheit dieser Preisentwicklung.

Die Erzeugerpreisindizes für die einzelnen Mitgliedsstaaten (und die Gemeinschaft) werden auch in ECU angegeben. Hierzu werden die nationalen Indizes mit dem jeweiligen für diesen Monat geltenden Wechselkurs gegenüber dem ECU umgerechnet.

5. Indizes der abhängig Beschäftigten

Die Beschäftigtenzahlen umfassen sämtliche beschäftigte Personen (auf der Lohnliste stehende Arbeiter und Angestellte).

6. Saisonbereinigung und arbeitstägliche Bereinigung

Die Produktionsindizes werden in zwei Etappen bereinigt: eine erste Bereinigung wird unter Berücksichtigung der ungleichen Zahl der Arbeitstage pro Monat durchgeführt (ausgenommen Dänemark, Spanien, das Vereinigte Königreich und Japan). Sodann erfolgt für EUR 15 und 12 der Mitgliedstaaten eine Saisonbereinigung mit Hilfe von SEATS, einem Verfahren entwickelt von Professor Maravall. Für Irland, Schweden und das Vereinigte Königreich werden die Indizes durch das nationale statistische Amt saisonbereinigt.

Eine Saisonbereinigung (aber keine arbeitstägliche Bereinigung) erfolgt in vergleichbarer Weise für die Indizes des Umsatzes, des Auftragseingangs und der abhängig Beschäftigten. Die Erzeugerpreise werden nicht saisonbereinigt.

7. Schaubilder

Die Schaubilder zeigen jeweils den **Trend (glatte Komponente)**, d.h. saisonbereinigte Werte, die zusätzlich um die irreguläre Komponente bereinigt wurden.

8. Weitere methodische Erläuterungen

Genauere Angaben bezüglich der Definitionen einzelner Indikatoren und der angewandten Erhebungs- und Berechnungsmethoden können bei Eurostat angefragt werden. Es existiert ein detailliertes Methodenhandbuch sowie eine Datenbank der verschiedenen nationalen Methoden.

COMMENTS

Weaker growth in industrial production

The growth in industrial production in the first half of 1995 slackened significantly compared to 1994, but did not come to a complete standstill. In the European Union (EUR 15), industrial production increased by just +4.7% in the first half of 1995 compared to the same period in 1994. The increase in the second half of 1994 had been +6.3%. Of the Member States, only Austria, Portugal and Sweden achieved higher rates of growth. The following increases were recorded in individual countries for the first half of 1995 compared to the first half of 1994 (the corresponding figures for the second half of 1994 compared to the second half of 1993 are given in brackets by way of comparison): Belgium not available, Denmark +6.5% (+9.6%), Germany +2.5% (+5.2%), Greece +1.2% (+1.7%), Spain +7.7% (+8.3%), France +4.3% (+5.1%), Ireland (estimate) +12.3% (+14.2%), Italy +7.0% (+9.8%), Luxembourg not available, Netherlands +2.5% (+3.5%), Austria +10.9% (+6.3%), Portugal +4.0% (+1.0%), Finland +10.0% (+11.4%), Sweden +12.5% (+11.9%), United Kingdom +3.4% (+5.0%).

On this basis, it can be observed that the three new Member States recorded some of the highest growth rates. The corresponding increases in the USA and Japan were +4.0% (+5.9%) and +5.2% (+4.1%) respectively.

The most recent data concerning the business cycle for the industrial sector reveal a weak, but steady rise in the trend cycle* component of the industrial production index. Compared to the first quarter, the increase in the second quarter of 1995 was +0.7%. In Germany it was +0.8%, in France +0.8%, in Italy +1.1%, in the United Kingdom +0.4%, in the USA -0.2% and in Japan +0.3%.

Luxembourg, 19.09. 1995

* The term trend denotes series adjusted for both seasonal influences and irregular fluctuations.

NOTES

1. Classification of industrial activities

The indices in this bulletin cover the economic activities as they are defined in Divisions C to F of the new revised General Classification of Economic Activities within the European Communities NACE - Rev.1. It should be noted that some of the Member States do not yet supply their short term indicators in NACE Rev.1. This necessitates estimations which reduces the reliability of these series.

2. Indices of production

The index of production measures changes in the volume (at constant prices) of the gross value added created by industry, the branch indices being aggregated (like the aggregation at Community level for a given industrial branch) by means of a system of weighing according to gross value added at factor cost.

3. Indices of turnover and orders received

These reflect changes in turnover (including sales for export) and orders received at current prices. None of these indices are supplied at present for Greece, Spain or Portugal, and France does not calculate any index of orders received.

4. Index of producer prices of industrial production

This index shows (in the national currency of the Member State in question) changes in the ex-works selling prices of all products sold on the domestic markets of the various countries. Since we deal with **producer** prices, imports are not included in these price indices. The Community indices (EUR 13, since there are no producer price indices for Portugal and Austria) refer to overall weighted price changes.

The producer price indices for the individual Member States (and the European Union) are shown in ecus as well. The national indices are converted by the exchange rate for the national currency against the ecu for the month in question.

5. Indices of the number of employees

Figures showing the number of employees include all persons employed by the firm (manual workers and salaried employees on the firm's payroll).

6. Seasonal adjustment and adjustment for number of working days

The indices of production are adjusted in two stages: firstly to take account of the varying number of working days in the month (except for Denmark, Spain, United Kingdom and Japan) and secondly by seasonal adjustment according to SEATS, a method developed by Professor Maravall, for EUR 15 and 12 of the Member States. For Ireland, Sweden and the United Kingdom, the indices are adjusted by the national statistical office.

The turnover, new orders and number of employees indices are seasonal adjusted (but no adjustment for number of working days). The producer prices are not seasonally adjusted.

7. Graphs

The graphs show the **trend cycle**, i.e. seasonally adjusted series where additionally the irregular component has been excluded.

8. Further explanations on methodology

Further details on the definitions of the various indicators and the methods used for survey and calculation can be demanded from EUROSTAT. There is a detailed methodological manual as well as a database on the various national methodologies.

%	per cent	1990=100	base year

COMMENTAIRE

Ralentissement de l'expansion de la production industrielle

La croissance industrielle s'est nettement ralentie au cours du premier semestre de 1995 par rapport aux six premiers mois de 1994, sans toutefois s'arrêter. Pour l'ensemble de l'Union européenne, (EUR 15), le taux de variation relevé au cours du premier semestre de 1995 par rapport à la période correspondante de l'année précédente a été de 4,7% alors qu'il atteignait encore 6,3% durant le second semestre de 1994. Parmi les Etats membres, seuls l'Autriche, le Portugal et la Suède ont enregistré des hausses de leur croissance industrielle. Les taux de variation enregistrés entre les premiers semestres de 1994 et 1995 pour les différents Etats membres sont les suivants (entre parenthèses figure le taux correspondant observé entre les seconds semestres 1994 et 1993): Belgique chiffre non disponible, Danemark 6,5% (9,6%), Allemagne 2,5% (5,2%), Grèce 1,2 % (1,7%), Espagne 7,7% (8,3%), France 4,3% (5,1%), Irlande (estimé) 12,3% (14,2%), Italie 7,0% (9,8%), Luxembourg chiffre non disponible, Pays-Bas 2,5% (3,5%), Autriche 10,9% (6,3%), Portugal 4,0% (1,0%), Finlande 10,0% (11,4%), Suède 12,5% (11,9%), Royaume-Uni 3,4% (5,0%). On observe donc que les trois nouveaux Etats membres de l'UE réalisent les taux de croissance parmi les plus élevés. Aux Etats-Unis, le taux de croissance correspondant est de 4,0% (5,9%) tandis que, pour le Japon, ce taux se chiffre à 5,2% (4,1%).

Si l'on observe l'état actuel de la courbe conjoncturelle dans le secteur industriel, on note une progression faible mais constante de la tendance-cycle* de l'indice de production. La croissance a été pour EUR 15 de +0,7% au second trimestre de 1995 par rapport au premier trimestre. Actuellement, le taux de croissance de la production industrielle est donc de +0,8% en Allemagne et en France, de +1,1% en Italie, de +0,4% au Royaume-Uni, de -0,2% aux Etats-Unis et de +0,3% au Japon.

Luxembourg, 19.09.1995

* On entend par tendance-cycle, les séries corrigées des influences saisonnières et des variations irrégulières.

NOTES

1. Nomenclature des activités industrielles

Les indices repris dans la présente publication portent sur les activités industrielles telles qu'elles sont définies dans la Nomenclature générale révisée des activités économiques dans les Communautés européennes NACE Rév.1, division C à F. Certains Etats membres ne fournissant pas de données dans la classification NACE Rév.1, il est nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

2. Indices de la production

L'indice de la production mesure l'évolution en volume (à prix constants) de la valeur ajoutée brute générée dans l'industrie, l'agrégation des indices de branches (comme l'agrégation au niveau communautaire pour une branche donnée) étant effectuée par pondération à l'aide de la valeur ajoutée brute au coût des facteurs.

3. Indices du chiffre d'affaires et des entrées de commandes

Ces indices rendent compte de l'évolution du chiffre d'affaire (y compris les ventes à l'exportation) et des entrées de commandes en valeur courante. Aucun de ces indices n'est disponible actuellement pour la Grèce, l'Espagne et le Portugal, et la France ne calcule pas l'indice des entrées de commandes.

4. Indice des prix à la production industrielle

Cet indice rend compte (dans la monnaie nationale de l'Etat membre concerné) de l'évolution des prix de vente départ-usine de tous les produits qui sont vendus sur les marchés intérieurs des Etats membres. Etant donné qu'il s'agit de prix à la **production**, les importations ne sont pas incluses dans ces indices de prix. L'indice communautaire (EUR 13, le Portugal et l'Autriche ne calculant pas actuellement d'indices des prix à la production) est une moyenne pondérée des différents indices nationaux.

Les indices des prix à la production des différents Etats membres (et de l'Union Européenne) sont également indiqués en écus. A cet effet, les indices nationaux sont convertis chaque mois par le taux de change de la monnaie nationale vis-à-vis de l'écu.

5. Indices du nombre de salariés

Le nombre de salariés inclut l'ensemble des personnes occupées (ouvriers et employés) figurant sur la feuille de paie.

6. Désaisonnalisation et correction des jours ouvrables

Les indices sont corrigés en deux étapes. Une première correction est effectuée pour tenir compte des différences en matière de nombre de jours ouvrables par mois (sauf pour le Danemark, l'Espagne, le Royaume-Uni et le Japon). La deuxième étape consiste à corriger des variations saisonnières, à l'aide de SEATS, une méthode développée par le Professeur Maravall, les séries pour EUR15 et pour 12 des Etats membres. Pour l'Irlande, la Suède et le Royaume-Uni, les indices sont désaisonnalisés par les offices statistiques nationaux.

Les indices du chiffre d'affaires, des entrées de commandes et du nombre de salariés sont désaisonnalisés (aucune correction n'est effectuée pour les jours ouvrables). L'indice des prix à la production n'est pas désaisonnalisé.

7. Graphiques

Les graphiques présentent des **tendance-cycles (fluctuation conjoncturelle)** c'est-à-dire des séries désaisonnalisées où en outre la composante irrégulière est exclue.

8. Autres explications méthodologiques

Des informations plus détaillées au sujet des définitions des différents indicateurs et des méthodes appliquées peuvent être demandées à EUROSTAT. Il existe un manuel méthodologique détaillé ainsi qu'une base de données sur les différentes méthodologies nationales.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Verarb. Gewerbe - Trendwachstum Monat zu Monat
 Manufacturing - Monthly Change in Trend
 Ind. manufacturières - var. mens. de la tendance

Saisonbereinigte Reihen enthalten irreguläre Effekte und Ausreißer, die die langfristige Konjunkturentwicklung überdecken. Der langfristige Trend dagegen zeigt allein die Richtung der konjunkturellen Entwicklung. Am aktuellen Rand können allerdings Fehlinterpretationen nicht ausgeschlossen werden, da hier die Werte unter Hinzunahme von Prognosen berechnet werden.

Seasonally adjusted series still contain irregularities and outliers which mask longer-term trends. Only the long-term trend, however, is an adequate indicator of economic evolution. However, care must be taken with the most recent figures because they have been calculated using forecasts.

Des séries corrigées des variations saisonnières contiennent toujours des effets irréguliers et des valeurs aberrantes qui masquent l'évolution conjoncturelle à long terme. En revanche, la tendance à long terme ne montre que l'orientation de l'évolution conjoncturelle. Néanmoins, il n'est pas exclu que les toutes dernières valeurs donnent lieu à des erreurs d'interprétation car ici les chiffres sont calculés à l'aide de prévisions.

¹ Schätzung – Estimation Eurostat

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentes dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder  un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Aller Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentes dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder a un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentees dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder a un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentes dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder a un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentes dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder a un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentes dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder a un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentes dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder a un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.

All Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veröffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, daß Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schätzungen notwendig, die die Verlässlichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les séries présentées dans cette publication suivent la nouvelle classification des activités NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de données dans la classification NACE Rev.1. Il est donc nécessaire de procéder à un grand nombre d'estimations ce qui réduit la fiabilité de ces indicateurs conjoncturels.

Alle Zeitreihen dieser Veroffentlichung folgen der neuen Wirtschaftszweigklassifikation NACE Rev.1. Es ist darauf hinzuweisen, da Irland und Luxemburg bislang ihre Reihen nicht in NACE Rev.1 liefern. Dies macht viele Schatzungen notwendig, die die Verlalichkeit dieser Konjunkturindikatoren reduzieren.

All time series in this publication follow the new activity classification NACE Rev.1. It should be noted that Ireland and Luxembourg do not yet supply their series in NACE Rev.1. This necessitates a lot of estimations which reduces the reliability of these short term indicators.

Toutes les series presentes dans cette publication suivent la nouvelle classification des activites NACE Rev.1. Cependant, l'Irlande et le Luxembourg ne fournissent pas de donnees dans la classification NACE Rev.1. Il est donc necessaire de proceder a un grand nombre d'estimations ce qui reduit la fiabilite de ces indicateurs conjoncturels.
