

EUROPEAN COMMUNITY (EC) TRADE WITH AFRICAN, CARIBBEAN AND PACIFIC COUNTRIES (ACP) -Results until September 1991-

PART I. EC TRADE BALANCE VIS-A-VIS THE ACP CLASS 2 COUNTRIES.

EC TRADE BALANCE WITH ACP .

1. EUR 12's trade deficit with the ACP countries was 2.7 billion ecus in the first nine months of 1991. This is a bigger deficit than in the corresponding period of 1990 when it was 1.5 billion ecus.

2. The EC's surplus on non-oil trade was 1.9 billion ecus in the first three quarters of 1991, up slightly from the 1.8 billion ecus in the same period of 1990.

3. EC exports amounted to 81% of EC imports from ACP. For non-oil trade, exports were 20% above imports.

4. The EC's trade balance with CLASS 2 (developing countries) has deteriorated by 4.6 billion ecus in the first three quarters of 1991 when compared to the same period in 1990. The non-oil surplus was reduced by around 2.4 billion ecus.

5. EC exports covered 90.7% of imports from CLASS 2.

PART II. EC IMPORTS FROM THE ACP AND CLASS 2 COUNTRIES. ⁽¹⁾

EC IMPORTS FROM ACP.

1. EUR 12 imports from ACP increased 6.2% in volume terms in the first nine months of 1991.

2. There was a 33% increment in the volume of fuel imports (SITC 3) in the same period. Imports of fuel represented 34% of total imports from ACP.

3. The value of EUR 12 imports rose nearly 3% to 14.3 billion ecus. However, non-oil imports fell 8.9% in the first three quarters of 1991.

4. Imports from CLASS 2 countries were up 7.5% in volume and 6.8% in value during this period. Fuel imports increased by 6.2% in volume terms.

5. Imports of food, beverages and tobacco (0+1) from ACP were up by 2.1% to 3.6 billion ecus in total value, reflecting a 2.2% decline in terms of ecu prices.

6. Imports of raw materials other than fuels (2+4) were down 17% in the first nine months of 1991 to 2 billion ecus. For CLASS 2 countries these imports were 10.3% lower.

7. EC imports of manufactured products (5-8) were down 9.5% in volume terms for ACP countries, while they experienced an increase of 12.3% for CLASS 2 countries. However, lower ecu imports prices drove the value for the ACP down to 16.2%.

PART III. EC EXPORTS TO THE ACP AND CLASS 2 COUNTRIES. (1)

EC EXPORTS TO ACP.

1. The volume of EC exports to ACP fell by 7.8% in the first three quarters of 1991 when compared to the same period of 1990.

2. The value of exports was 11.6 billion ecus, some 6.5% lower than the same period of 1990.

3. The volume of exports to CLASS 2 countries was up 2.8%, while the value increased by 2.6% during the period considered.

4. Manufactured products (SITC 5-8) accounted for 78% of EC exports to the ACP and 82% to the CLASS 2 countries. EC exports of these products to the ACP fell by 8.4% in value and by 11.8% in volume in the first three quarters of 1991.

5. EC exports of machinery and transport equipment (7) were particularly depressed, declining around 14% in volume terms.

6. EC exports of food, beverages and tobacco (0+1) to the ACP increased by 9.4% in volume. However, due to lower ecu exports prices, they experienced a decrease of 0.1% in value terms.

PART IV. EC-ACP TRADE BY PARTNER COUNTRIES. (Mio ECU)⁽¹⁾

1. By groups of countries, the EC experienced the biggest deficit in the first three quarters of 1991 with West Africa (around 1.7 billion ecus) and Central Africa countries (over 1.3 billion ecus). The EC only keeps a small (around 0.7 billion ecus) but very stable surplus with East North Africa.

2. By individual countries the EC experienced important deficits in the first nine months of 1991 with Nigeria (around 1.3 billion ecus), Côte d'Ivoire (0.56), Cameroon (0.43) and Mauritius (0.31). The EC registered smaller surplus with the following countries: Sudan (0.2 billion ecus), Kenya (0.15), Tanzania (0.13) and Mozambique (0.13)

⁽¹⁾ External Trade Statistics (imports CIF, Exports FOB).⁽²⁾ Geonomenclature EUROSTAT.⁽³⁾ CARIBBEAN ACP.⁽⁴⁾ PACIFIC ACP.

PART V. EC-ACP TRADE BY MAIN PRODUCTS.

1. Imports from the ACP countries are relatively concentrated: five products covered nearly 50% of total imports in the first three quarters of 1991. When considering the 20 most important products this proportion elevates to nearly 75%.

2. The 33.4% increase in the volume of crude petroleum imports was the largest single factor contributing to the 6.2% increase in the volume of EC imports from ACP. Imports of crude petroleum represented nearly 34% of the total imports from ACP countries

3. Coffee (4.6% of total imports from ACP), cocoa beans (4.5%), non industrial diamonds (3.5%) and raw cane sugar (3.5%) were, after crude petroleum, the most important products exported by ACP countries to the EC.

4. Tobacco stripped, gold and crude petroleum were the three products which presented the most important increase, both in value and quantity, during the first three quarters of 1991; copper, uranium, wood and non industrial diamonds experienced the largest decrease.

5. The EC imported more than 75% of its total extra-imports from the ACP countries for the following products: tropical wood, raw cane sugar and cocoa beans.

6. The products which have suffered the most important reduction in their prices expressed in ecus, during the first three quarters of 1991, are the following: aluminium, cocoa beans, copper, wood and coffee. For raw cane sugar, prices in ecus have increased nearly 9% during the first nine months of 1991: imports of this product grew by 8.3% in value terms instead of a reduction of 0.6% in volume.
