COM(79) 600 final/2

Amendment to the Communication from the Commission to the Council of 25 October, 1979, concerning the establishment for 1979 of the total allowable catch (TAC) for certain fish stocks existing within the Community fisheries zone.

As an amendment to its Communication to the Council of 25 October, 1979 (1), the Commission submits, as an annex, for examination by the Council an addendum to the TAC figures presented in the earlier document. The TAC figure in question concerns the stock of cod in Community waters in the Baltic (ICES III b,c,d). The amendment is proposed at this stage on the basis of further consideration of scientific data which has recently become available and given that there are now only two months left in which to take advantage of the increased fishing possibilities.
