'Youth in Action' Programme

IMPACT OF THE YOUTH IN ACTION PROGRAMME

The Youth in Action Programme is the EU Programme for all young people; it aims to inspire a sense of active citizenship and tolerance among young Europeans and to involve them in shaping the Union's future by boosting their participation in democratic life. The Programme promotes mobility, non-formal learning and intercultural dialogue among European youth, and encourages the inclusion of all young people, particularly those with fewer opportunities, by supporting a large variety of activities, including youth exchanges, transnational voluntary service as well as training and networking for youth workers.

This leaflet illustrates the main results of a survey launched by the European Commission among participants of projects supported by the Youth in Action Programme. The outcomes of this survey show a strong impact of the Programme on young participants, on social animators dealing with young people (youth workers) and on youth organisations. This impact relates not only to skills and competences acquired by participants, but also to their being active citizens.
