Le bulletin publie chaque semaine les prix communiqués par les Etats membres, comme étant les plus fréquemment pratiqués, pour une catégorie de consommateurs bien spécifique définie ci-dessus.
Des comparaisons de prix entre Etats membres ainsi que leur évolution doivent être faites avec une certaine prudence et sont d'une validité limitée en raison, non seulement des fluctuations des taux de change, mais également des différences dans les spécifications de qualité des produits, des méthodes de distribution, des structures de marché propres à chaque Etat membre et dans la mesure où les catégories répertoriées sont représentatives de l'ensemble des ventes pour un produit donné. Une description détaillée de la méthodologie utilisée sera jointe en annexe du bulletin paraissant au début de chaque trimestre.

The bulletin reports prices supplied by the Member states as being the most frequently encountered for the specific categories of sale listed above.

Comparisons between prices and price trends in different countries require care. They are of limited validity, not only because of fluctuations in exchange rate, but also because of differences in product quality, in marketing practices, in market structure, and in the extent to which the standard categories of sales are representative of total national sales of a given product. A description of the methodology followed is appended to the bulletin at the beginning of each quarter.

Das Bulletin veröffentlicht jede Woche die von den Mitgliedsstaaten gemeldeten Verbraucherpreise und ist somit für eine weiter unten genauere spezifiziertere Verbrauchergruppe die am häufigsten durchgeführte Erhebung.

Ein Preisvergleich zwischen den Mitgliedsstaaten wie auch die Preisentwicklung müssen aus folgenden Gründen mit einer gewissen Vorsicht vorgenommen werden: Schwankung der Wechselkurse, Unterschiede in den Produkt-spezifikationen und -qualitäten, Verteilungssysteme, besondere Marktstrukturen in den einzelnen Mitgliedsländern, Repräsentanz der vorgegebenen Produktdefinitionen mit den gesamten nationalen Verkäufen eines bestimmten Produktes. Eine detaillierte Beschreibung der verwendeten Methoden ist jeweils im Anhang des Öl-Bulletin enthalten, welches zu Beginn eines jeden Quartals erscheint.
