Mrs WIECZORECK-ZEUL

for entry in the register  
pursuant to Rule 49 of the Rules of Procedure  
on peace and disarmament

PE 85.759

The European Parliament,

- A - whereas the accumulation of destructive weapons is jeopardizing the entire world and in particular the peoples and countries of the European Community,
- B - whereas large sums are spent on arms production, while social expenditure, particularly for the purpose of safeguarding jobs, is far from adequate in the industrialized countries in general and in Community countries in particular,
- C - whereas the situation in many countries suffering from under-development, hunger and natural disasters has reached dangerous proportions, calling for renewed efforts in the field of cooperation and assistance,
- D - convinced of the need to foster a willingness to negotiate in order to reduce international tensions,

1. IS RESOLVED TO:

- arouse public opinion in Europe and urge the public to express its determination to help achieve a world free from the threat of war, in which the security requirements of each country would be respected ...in a spirit of cooperation beneficial to all,
- call on the governments of the ten Community Member States, acting jointly and severally, particularly in the framework of political cooperation, to contribute to the success of the current negotiations on halting the arms race, obtaining mutual and balanced force reductions, especially in the number of missiles and nuclear weapons in the arsenals of the East and West, and fostering détente, security and cooperation.

2. Instructs its President to forward this resolution to the Commission and the Council of the European Communities.
