The 2017 Statistical Package offers the most up-to-date information on the state of European capital markets in the aftermath of the financial crisis. Its contents are divided into six main sections: equity, debt securities, exchange-traded derivatives, over-the-counter derivatives, asset management and global comparative data.

**Most valuable features of the ECMI Statistical Package**

- The package presents the most relevant data on the dynamics of European and global capital markets (i.e. the US, Japan, China and all other relevant markets).
- It enables users to trace trends so as to highlight the ongoing transformation of capital markets, including the structural changes brought about by competitive forces, innovation and regulation.
- It represents an important step towards overcoming the data fragmentation on the evolution of European capital markets by offering a ‘one-stop-shop’ for market participants, regulators, academics and students.
- Each table is associated to a figure, giving a visual overview of the most important trends.
- A user-friendly navigation is embedded in the program allowing users to explore the comprehensive package in an easy yet purposeful manner.

**Coverage**

- Data for over 40 stock exchanges
- Data for 40 countries
- Time frame of 26 years of capital markets transactions (1991-2016)
- Data are rendered in over 150 tables and 120 figures.

The package is available in Excel [here](#) (Free of charge for ECMI members)

Non-members may purchase it [here](#) (Via the CEPS online bookshop)

About ECMI – Informing policy on European capital markets

ECMI conducts in-depth research aimed at informing the debate and policy-making process on a broad range of issues related to capital markets. Through its various activities, ECMI facilitates interaction among market participants, policymakers and academics. These exchanges are fuelled by the various outputs ECMI produces, such as regular commentaries, policy briefs, working papers, statistics, task forces, conferences, workshops and seminars. In addition, ECMI undertakes studies commissioned by the EU institutions and other organisations, and publishes contributions from high-profile external researchers.

About CEPS – Thinking ahead for Europe

CEPS is one of Europe’s leading think tanks and forums for debate on EU affairs, with an exceptionally strong in-house research capacity and an extensive network of partner institutes throughout the world. CEPS’ commitment to institutional independence is rooted in the independence exercised by each member of its staff. As an organisation, CEPS is committed to carrying out state-of-the-art policy research that addresses the challenges facing Europe and maintaining high standards of academic excellence and unqualified independence and impartiality. It provides a forum for discussion among all stakeholders in the European policy process and works to build collaborative networks of researchers, policymakers and business representatives across the whole of Europe.
