## Part A: Publications

### Introductory note

The catalogue of publications of the European Communities is divided into two parts.

**Part A** comprises the monographs and series published during the year by the Institutions of the European Communities as well as the yearly periodicals.

**Part B** comprises the bibliographic notices of the **COM Documents**, **EP Reports** and **CES Opinions** published every month, on paper and microfiche, by the Institutions of the European Communities.

### Arrangement of Part A

Publications of which English versions have been issued are listed only in that language; otherwise another version, but only one, is included, in the following order of choice:

French	Greek
German	Spanish
Italian	Portuguese
Dutch	others
Danish	

Where other language versions also exist, cross-references are provided by means of a code (those codes should not be used for ordering purposes):

IT: 85 - 12

which means that the Italian version is described in the Italian catalogue under No 12. This number is specific to each catalogue; it is a sequence number printed in consecutive order, opposite each entry in the classified list.

The catalogue is divided into three parts, as follows:

**Part I — The classified list** provides a subject classification of the titles included under 22 headings each divided into subheadings (see p. 8).

Under each heading, monographs and series are listed first in alphabetical order; there then follows a similar list of periodical titles.

Each title is listed under every relevant heading but full bibliographic entries appear only once for each title. Each secondary entry is followed by a cross-reference (in the right hand margin) to the sequence number of the full entry. Periodical titles appear in the classified list only as cross-reference entries, full entries being found in Part II.

**Part II — Periodicals** presents full details of each current Community periodical, listed alphabetically.

**Part III — The indexes of titles and series** are listed alphabetically and cross-refer using the abovementioned

sequence numbers to the entries in Part I of the catalogue.

### How to obtain publications

Publications may be priced for sale, gratis, or of limited distribution. Those of the last two classes may be obtained from the issuing institutions, or, where they are published by the Information Offices of the Commission from those offices, whose addresses are given in the lists on pp. 4 and 5. Publications of limited distribution are, however, generally only for the attention of governments of Member States, Community departments and other authorities concerned.

Orders for priced publications should be directed to the Sales Offices listed on the last page.

All orders should quote the full title, as well as the ISBN or ISSN where such a number precedes the prices in the catalogue.

### Abbreviations and conventional signs

The text languages of publications are indicated by the following abbreviations:

DA	Danish	GA	Irish
DE	German	IT	Italian
GR	Greek	NL	Dutch
EN	English	ES	Spanish
FR	French	PT	Portuguese

A string of such symbols separated by diagonal strokes denotes a publication in which different language versions of the same text appear under one cover.
