Introduction

This catalogue of documents listing COM documents of the European Commission, reports of the European Parliament and opinions of the Economic and Social Committee (ESC) is prepared by the Office for Official Publications of the European Communities for distribution to the public.

COM documents and the opinions of the ESC are available either on paper or on microfiche. From 1 January 1997 all European Parliament reports are available free on the Internet (<http://europarl.eu.int>); the European Parliament reports are available on microfiche only up to No 417/97 of 1997. From 1 January 1998 these documents are no longer available in physical form.

This version of the catalogue takes account only of documents of which English language texts have been prepared. There are parallel catalogues covering documents in each of the other official languages of the European Union.

Presentation

The catalogue is divided into three parts.

Part I — **The systematic catalogue** provides a classification by subject, of the titles, under 17 headings (see 'List of headings' on p. V).

Each complete entry is preceded by a sequence number, which appears only once for each document title. The title of a document, however, may sometimes appear under more than one heading by virtue of the subject matter, and in this case the sequence number is given on the right-hand side of these secondary entries but without a bibliographic reference (see detailed explanation on p. IV).

Part II — **The subject index** comprises all the keywords which characterise the contents of the documents and which are permuted as many times as they appear.

The indexation is based on analysis and subsequent redefinition of the document using keywords contained in the Eurovoc thesaurus (multilingual documentary language).

Each document is indexed with one to five keywords. Every keyword constitutes an entry in bold characters in the index, followed by any other relevant keywords and a sequence number pertaining to the document in the catalogue (see detailed explanation on p. IV).

Part III — **The numerical index** comprises all the documents in ascending numerical order.

Frequency and cumulation

Cumulative annual catalogues are published yearly. These catalogues complement the monthly lists that contain only the systematic catalogue.

Subscription system

Subscriptions are available for the paper and microfiche versions of the COM documents and the opinions of the ESC covered by this catalogue, either individually or in combination.

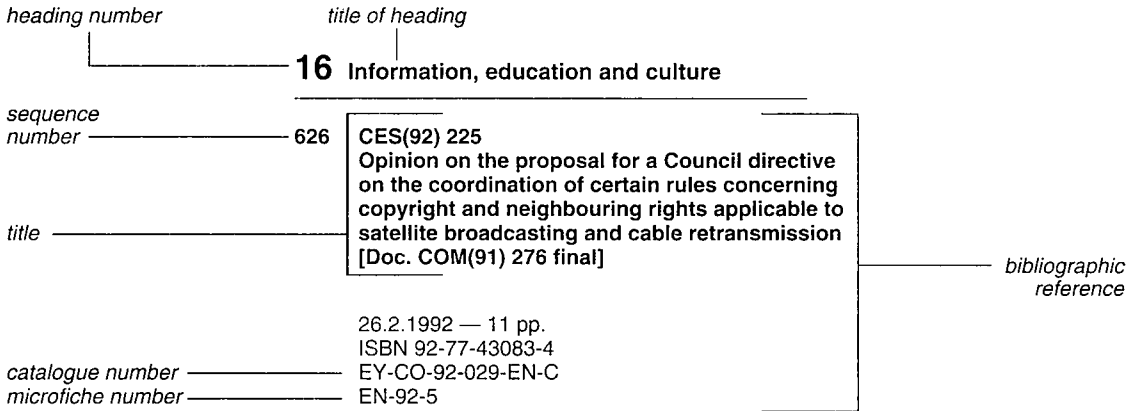

More information can be obtained from the sales offices whose addresses are given on the inside back cover.

Other publications

Other European Community monographs — whether classed as publications or documents — as well as periodicals are listed in the catalogue *Publications*.
