Introduction

This catalogue appears in each of the nine official languages of the European Community.

It comprises the monographs published by the Institutions of the Community during the period 1985-1994, as well as current periodicals. ⁽¹⁾

Please note: This catalogue replaces and updates all earlier catalogues. The period covered by the catalogue, previously shown on the cover, has been replaced by the catalogue's year of issue.

Presentation of the catalogue

Each publication appears in only one language, if the English version does not exist, another language version will be included, in the following order of preference:

French	Spanish	Danish
German	Portuguese	Greek
Italian	Dutch	others

Where other language versions also exist, cross-references are provided by means of a code, in the following form:

IT:88-12 which signifies that:

IT the Italian version is described in the Italian catalogue

88 in the year 1988

12 entry number 12 in the classified index

The catalogue is divided into five parts, as follows:

1. **The classified index:** Provides a subject classification of the titles, according to the list on page 8. Under each heading, priced publications and publications that are free of charge are separated.

For each monograph or collection, the full bibliographic entry appears only once and is preceded by a sequential entry number. If the publication appears under another heading, only the title and the principal sequence number are indicated.

In the case of publications in numerous volumes (collection), the first entry is the collection, followed by each volume. If one of the volumes does not exist in the language of the corresponding collection another language version will appear, in the order of preference and within square brackets [].

For the periodicals, only the title and entry number of the periodical index appear.

2. **The periodical index:** Comprises the bibliographic entry of the periodical, preceded by a sequential entry number.

3. **The alphabetical index:** Comprises the contents of each publication, with the exception of EUR documents, according to keywords (descriptors) contained in the Eurovoc thesaurus. ⁽²⁾

4. **The title index.**

5. **The series index:** Alphabetical list of series with corresponding monographs.

The alphabetical, titles and series indexes indicate as a reference the entry number of the classified index.

Abbreviations and conventional signs

The text languages of publications are indicated by the following abbreviations:

ES Spanish	EN English	IT Italian

⁽¹⁾ The COM Documents, EP Reports and ESC Opinions are listed in other catalogues, which are also edited in each of the nine official languages and appear monthly and annually.

⁽²⁾ EUROVOC THESAURUS: Indexation tool, has been produced by the European Parliament and the Publications Office. Available on request: Publications Office, OP4-4, will send a detailed brochure of the Eurovoc Thesaurus.
