## *II — Abbreviations used to denote the languages in which the publications are available*

This edition of the catalogue gives an English title only where the publication exists in English; otherwise the French title is quoted, followed by an English translation in brackets.

The abbreviations after each title indicate the languages in which the documents have been published, *viz.* d = German, f = French, i = Italian, n = Dutch, e = English, s = Spanish, *e.g.* "Journal officiel des Communautés européennes (d-f-i-n)" indicates that there are separate editions available in German, French, Italian and Dutch.

The same abbreviations, but separated by oblique strokes instead of dashes, are used for bilingual and multilingual publications, e.g. "Nomenclature of the Industries in the European Communities (d/f) et (i/n)" indicates that two bilingual editions are available, one in German and French and the other in Italian and Dutch; "Charbons et autres sources d'énergie (d/f/i/n)" indicates a single volume containing the text in all four official languages.

# Press and Information Service of the European Communities

As part of its work of making the activities of the European Communities known to a wide public, the Press and Information Service periodically issues brochures, folders, maps and other material on the three Communities (E.C.S.C., E.E.C. and Euratom), explaining in simplified outline form, with the aid of diagrams and other illustrative devices, the various aspects, problems and stages of the economic integration of the Europe of the Six.

These publications (which being circulated on a very considerable scale tend to be soon out of stock, and are superseded by others as need arises) are supplied free of charge on application to the Central Sales Offices in Brussels and Luxembourg or the Community information offices in the four other member countries and in the United Kingdom and United States.
