Introduction

This catalogue appears in each of the nine official languages of the European Community.

It comprises the monographs published by the Institutions of the Community during the period 1985-1991, as well as current periodicals. ⁽¹⁾

Presentation of the catalogue

Each publication is issued in only one language, if the English version does not exist, another language version will be included, in the following order of preference:

French	Spanish	Danish
German	Portuguese	Greek
Italian	Dutch	others

Where other language versions also exist, cross-references are provided by means of a code, in the following form:

IT:88-12 which signifies that:

IT the Italian version is described in the Italian catalogue

88 in the year 1988

12 entry number 12 in the classified index

The catalogue is divided into five parts, as follows:

1. The classified index: Provides a subject classification of the titles, according to the list on page 8. Under each heading, priced publications and publications that are free of charge are separated.

For each monograph or collection, the full bibliographic entry appears only once and is preceded by a sequential entry number. If the publication appears under another heading, only the title and the principal sequence number are indicated.

In the case of publications in numerous volumes (collection), the first entry is the collection, followed by each volume. If one of the volumes does not exist in the language of the corresponding collection, another language version will appear, in the order of preference, and within square brackets [].

For the periodicals, only the title and entry number of the periodical index appear.

2. The periodical index: Comprises the bibliographic entry of the periodical, preceded by a sequential entry number.

3. The alphabetical index: Comprises the contents of each publication, with the exception of EUR documents, according to keywords (descriptors) contained in the Eurovoc thesaurus. ⁽²⁾

4. The title index.

5. The series index: Alphabetical list of series with corresponding monographs.

The alphabetical indexes, of the titles and series indicate as a reference the entry number of the classified index.

How to obtain publications

Publications may be available for sale, free of charge, or of limited distribution. Those falling into the last two categories may be obtained from the issuing institutions, or, where they are published by the Commission, from those offices whose addresses are given in the lists on pages 6 and 7. Publications of limited distribution are, however, generally only for the attention of governments of Member States, Community departments and other authorities concerned.

Orders for priced publications should be directed to the Sales Offices listed on the inside back cover.

All orders should quote the full title, as well as the ISBN or ISSN where such a number precedes the prices in the catalogue.

Abbreviations and conventional signs

The text languages of publications are indicated by the following abbreviations:

ES	Spanish	EN	English	IT	Italian
DA	Danish	FR	French	NL	Dutch
DE	German	GA	Irish	PT	Portuguese
GR	Greek				

A sequence of such symbols separated by diagonal strokes denotes a publication in which different language versions of the same text appear under one cover.

The prices given are without VAT and are expressed in Ecu (ECU). Approximate value: 1 Ecu = UKL 0.71 : IRL 0.76 : USD 1.27 : BFR 42.08.

⁽¹⁾ The COM Documents, EP Reports and ESC Opinions are listed in other catalogues, which are also edited in each of the nine official languages and appear monthly and annually.

⁽²⁾ EUROVOC THESAURUS: Indexation tool, has been produced by the European Parliament and the Publications Office. Available on request: Publications Office, OP4-4, will send a detailed brochure of the Eurovoc Thesaurus.

Thin slab casting	1449		
Toughness, tensile properties and fracture behaviour of structures in modern steels	1450		
Traitements de finition en carrosserie automobile pour les produits revêtus: influence de la déformation d'emboutissage sur la phosphatation	1451		
Überprüfung bruchmechanischer Konzepte zur Gewährleistung der Bauteilsicherheit durch Versuche an thermomechanisch gewalzten Stählen	1452		
Uniformisation de la merche des bandes d'agglomération par amélioration des techniques de dépôt du mélange sur la grille	1453		
Untersuchung der Bandverformung in Spannrollensätzen: Umwandlung (Walzwerke)	1454		
Untersuchung der Einbau- und Betriebsbedingungen von Planheitsmeßsystemen an Kaltwalzanlagen	1455		
Untersuchung der metallurgischen Bedingungen in einem Drehstrom-Plasma-beheizten Pfannenofen	1456		
Untersuchung des Einflusses unterschiedlicher Gefügestände auf Bruchmechanik-Kennwerte	1457		
Untersuchung des Zähigkeitseinflusses in der Hochlage und im Übergang der Kerbschlagarbeit-Temperaturkurve auf das Tragverhalten und die bruchmechanischen Parameter gekerbter Proben	1458		
Untersuchung zur gesteuerten Abkühlung von Stranggußvorbrammen in der Gießmaschine und während des Transports zum Wärmofen mit dem Ziel der Erhaltung der Enthalpie	1460		
Untersuchungen der Umfangssymmetrie einer glockenlosen Begichtung und Maßnahmen zu ihrer Beeinflussung	1461		
Untersuchungen zum Subliquidus-Umschmelzen hochlegierter Stähle mit selbstverzehrender Elektrode	1462		
Untersuchungen zur Wirkungsweise der Elemente Bor, Titan, Zirkon, Aluminium und Stickstoff in wasservergüteten, schweißbaren Baustählen	1463		
Use of the optical basicity concept for determining phosphorus and sulphur slag/metal partitions	1464
