Annex:      Amendments

The Committee on Budgets hereby submits the following motion for a resolution to the European Parliament:

MOTION FOR A RESOLUTION

on

the amendments to the estimates of revenue and expenditure of the European Parliament for the financial year 1978 (Section I of the draft general budget of the European Communities)

The European Parliament,

- having regard to Rules 23(A), 49 and 50 of its Rules of Procedure,
  
- having regard to the report of the Committee on Budgets and the draft amendments annexed thereto (Doc. 340/77 );
  
- 1. Points out that the amendments which it is making to its estimates adopted on 16 June 1977 are essentially in the nature of corrections necessitated by decisions taken after that date and by subsequent new factors;
  
- 2. Notes that these amendments are intended to permit the normal development of parliamentary activities and of the work of the secretariat in 1978 without, at this stage, making full allowance for the requirements of the Parliament elected by direct universal suffrage;
  
- 3. Points out once again that it will be appropriate to meet those needs through a supplementary and amending budget to be adopted during the next financial year on the basis of a thorough review of the desirable organization of the activities of Parliament;
  
- 4. Deems it appropriate to release 64 of the 83 posts created in the estimates adopted on 16 June last, considering firstly that detailed documentation which may give rise to a rationalization of the services has now been submitted to the Committee on Budgets, and secondly that this committee proposes to agree with the Bureau on the implementation of certain measures for rationalization of the activities of the secretariat which might be taken when the supplementary and amending budget for 1978 is established;

5. Reserves the right, before completion of the budgetary procedure, both to release the 19 linguists' posts created for 1978 on adoption of its estimates, and possibly to create others to meet the growing translation requirements of the political groups;
6. Amends its estimates of revenue and expenditure and the establishment plan annexed thereto as detailed in the following draft amendments;
7. Finally adopts its budget for 1978, therefore, at a figure of 99,812,612 EUA;
8. Instructs its President to forward this motion for a resolution and the related amendments to the Council of the European Communities.

List of posts

- Add to the list of posts the following new posts: 6 LA 4<sup>x</sup>, 6 LA 5, 1 C 1, 6 C 3/2 secretaries in C 2, 3 C 3/2 clerks in C 2, 1 D 3/2 in D 2.

A) Expenditure

C) Remarks

Additional staff for the translation, reproduction, distribution and mail departments, in particular for use by the political groups, in connection with the activities associated with preparations for the campaign leading up to the elections to the European Parliament.

JUSTIFICATION

It is essential for the European Parliament and its organs to have at their disposal a larger translation department, with corresponding increases in staff of the reproduction, distribution and mail departments.

This is particularly necessary for the preparation, translation and distribution of documents and press releases in the campaign leading up to elections to the European Parliament by direct universal suffrage.

The posts requested, which are equivalent to the minimum structure required to achieve the objective in question, would break down as follows:

- translation (6 languages) 6 x 1 LA 4 - 6 x 1 LA 5 - 6 x 1 C 3/2
- 1 C 1 (translation, reproduction, distribution coordination and planning)
- 2 C 3/2 and 1 D 3/2: reproduction, distribution

At its meeting of 18 October 1977, the Committee on Budgets once again agreed on the need for a quantitative and qualitative strengthening of its secretariat and for a single secretariat to be maintained for the Committee on Budgets and its control subcommittee for the reasons of substance already explained in many reports adopted by Parliament.

The increase in the establishment plan of the secretariat of the Committee on Budgets is intended to meet the growing work load resulting from the establishment of the Court of Auditors.

JUSTIFICATION

The enlarged Bureau considers it desirable to set up within the Secretariat a data-processing coordination department.

Although the rapporteur is in principle in favour of setting up this department, he can give only partial support to the proposals submitted with regard to the establishment required. In his opinion the initial core of data-processing staff should be fairly small, pending a careful study to establish the correct size of such a department within the Secretariat.

C) Remarks

Enter the following remarks against this item:

'Appropriation required for the recruitment of two teams of auxiliary staff (duplicator operators) during four weeks in Strasbourg and four days in Luxembourg.

This appropriation may be used as the need arises.'

JUSTIFICATION

In 1977, the increase in the activities of the reproduction and distribution section already revealed the need to use the reproduction workshops in Strasbourg during four weeks each year. The same urgent requirement has arisen for the Luxembourg workshops.

The proposed increase will only enable the growing requirements for the reproduction of texts in the Parliament's own workshops to be partially met. The most important change in the present situation must consist in a reduction in the number of texts to be reproduced, especially when the texts are not those of the European Parliament.

If no such reduction were envisaged it would be necessary to provide for an endless growth and development of the reproduction workshops which cannot be envisaged and is out of the question because of the resulting serious impact on the establishment plan and appropriations.

B) Revenue

C) Remarks

JUSTIFICATION

The operation of the day nursery must be improved. It has now become essential to install it in more adequate premises than those available at present.

The full time services of a qualified nurse have also become essential.

A satisfactory solution to these problems will have to be found next year.

The increase requested is purely indicative, corresponding to half the appropriations at present entered against this item. Its purpose is to stress the urgent need for a remedy to an unsatisfactory situation. There is an entry in the estimates (Item 1010 for the rental and installation of a new day nursery) but that programme will take two years to implement. Urgent solutions must be found in the meantime.

'Appropriation to cover the European Parliament's contribution to information on elections to the European Parliament by direct universal suffrage'

### JUSTIFICATION

An appropriation of 3 m u.a. was entered under this heading in 1977 (budget of Parliament, Chapter 100, Article 1001), with an allocation of 2 m u.a. to the political groups and 1 m u.a., for general information, to the Directorate-General for Information (10,000 u.a. of this sum was subsequently allocated to non-attached Members).

It is the unanimous view of the chairmen of the political groups that for 1978 the appropriation under this heading should be raised to 9,680,000 EUA, with an allocation of 4,840,000 EUA to the political groups and 4,840,000 EUA to general information.

18. OCTOBER 1977...

Doc. 270 /256

DRAFT  
GENERAL BUDGET OF THE EUROPEAN COMMUNITIES  
FOR THE FINANCIAL YEAR 1978

DRAFT AMENDMENT No. ...256

tabled by Mr COINTAT, rapporteur  
on behalf of the Committee on Budgets

SECTION I - PARLIAMENT

A) Expenditure

Title 10 - Other expenditure  
Chapter 100 - Provisional appropriations

Increase expenditure by 5,000,000 EUA.

B) Revenue

Increase revenue accordingly.

C) Remarks

Add the following remarks:

'Indicative estimate of the appropriations required to rent, fit out and furnish the additional installations and premises in Strasbourg, Luxembourg and Brussels with a view to the operation of the Parliament elected by direct universal suffrage. These appropriations are frozen and can only be used after the Committee on Budgets has delivered a favourable opinion'.

JUSTIFICATION

As indicated by the rapporteur in the report on the draft estimates approved by the Committee on Budgets and the Parliament on 13 June 1977, it is difficult to calculate the amounts needed to meet expenditure resulting from rental, fitting out and furnishing of the installations which will be used by the elected Parliament. It is however certain that additional appropriations will be required to cover the rental, fitting out and furnishing of the additional premises which will have to be provided to enable the 410 Member Parliament to pursue its activities under normal conditions.

The proposed appropriation is purely indicative. It does not reflect a precise calculation but has been set at 5,000,000 EUA because the present appropriation entered for the same requirements in respect of a 198 member Parliament is similar in scale (5,050,000 EUA for the rental, fitting out and furnishing of buildings).
