Subject: Tripartite conference on the impact of the
energy crisis on the employment situation

The energy crisis has had disturbing consequences on the employment situation. In the Federal Republic of Germany, for instance, not only has the entry of foreign labour been stopped but the number of unemployed has doubled.

Does the Council not feel it should urgently consider the proposal by the European trade union organizations for a tripartite conference between the unions, management and the Community organizations to discuss the impact of the energy crisis on the employment situation?
