SEC(93) 692 final

Brussels, 5 May 1993

PROPOSAL FOR A COUNCIL DECISION

concerning the conclusion of an Agreement between
the European Economic Community and
the United States of America
on procurement

PROPOSAL FOR A COUNCIL DECISION

concerning the extension of the
benefit of the provisions of
Directive 90/531/EEC of
17 September 1990 in respect of
the United States of America

(presented by the Commission)

EXPLANATORY MEMORANDUM

Following talks in Washington on 19 and 20 April at high level, agreement was reached on the opening of the procurement markets. The agreement includes the following elements:

- as a general balanced liberalisation, both sides would remove limitations to each other's companies bidding to supply goods, works and services to central government ("A" entities);
- US would remove discrimination against EC bids for tenders by 6 federally financed electrical utilities;
- EC would extend the benefit of the Utilities Directive and disapply Art. 29 in relation to the supply of products in the electrical sector to the US. Other sectors including telecom would not be affected;
- US would set in train a credible process to lead to maximum possible coverage of sub-federal entities and the elimination of certain "Buy American" provisions;
- both sides would jointly finance an independent study, to be completed by 31 January 1994, which could be used as a yardstick in further negotiations on procurement.

The Council is invited to approve the agreement and adopt the proposal for a Decision concerning the conclusion of an Agreement between the EC and US on procurement.

To implement the part of the agreement which extends to the US the benefits of the "Utilities Directive" (90/531/EEC) as far as the electrical sector is concerned, the Council is invited to adopt the proposal for Decision concerning the extension of the benefit of the provisions of Directive 90/531/EEC of 17 September 1990 in respect of the United States of America.

MEMORANDUM OF UNDERSTANDING
BETWEEN
THE UNITED STATES OF AMERICA
AND
THE EUROPEAN ECONOMIC COMMUNITY
ON
GOVERNMENT PROCUREMENT

Memorandum of Understanding between the United States of America (the USA) and the European Economic Community (the EEC), dated [] May 1993:

WHEREAS the USA and the EEC are parties to the GATT Agreement on Government Procurement (the Code), which entered into force on 1 January 1981;

WHEREAS Article IX:6 of the Code states that the parties to the Code shall undertake further negotiations with a view to broadening and improving the Code on the basis of mutual reciprocity;

WHEREAS the USA and the EEC have been involved in multilateral negotiations to expand coverage of the Code since 1984;

WHEREAS in the interest of facilitating agreement on a new Code, the USA and the EEC undertook bilateral negotiations to resolve certain outstanding problems between them;

WHEREAS the USA and the EEC expect that any bilateral agreement on these issues will provide appropriate reciprocal competitive government procurement opportunities, that are intended to become part of the expanded Code;

WHEREAS the USA and the EEC have decided to make certain reciprocal commitments to open their respective procurement markets as a downpayment towards an expanded Code;

THEREFORE, the USA and the EEC have agreed as follows:

Article 1 Scope and definitions

1. This Agreement shall apply to:

- contracts for goods, works (otherwise "construction services"), and other services, which are awarded by entities included in Annexes 1 and 2; and
- contracts for goods and works, which are awarded by entities listed in Annexes 3 and 4.

2. "Works contracts" shall be those contracts which have as their objective the realization by whatever means of civil or building works, in particular in the sense of division 51 of the Common Product Classification of the United Nations or of Annex 2 to Council Directive 71/305/EEC.

"Other services" shall be those contracts for which the principal object is the obtaining of one or more of the services which are included in both Annexes 5 and 6.

Article 2 Central and federal government entities

1. In the award of contracts by entities which are included in Annex 1, the EEC shall afford to the suppliers, contractors and service providers of the USA and to goods and services originating within the customs territory of the USA the award procedures of Council Directive 77/62/EEC which shall apply to goods contracts, the estimated value of which, net of VAT, is not less than the Code threshold, currently ECU 125 576, of Council Directive 92/50/EEC, which shall apply to services contracts, the estimated value of which, net of VAT, is not less than ECU 200 000, and of Council Directive 71/305/EEC, which shall apply to works contracts the estimated value of which, net of VAT, is not less than ECU 5 000 000;

2. The USA shall waive the application of the Buy America Act (41 U.S.C. 10a) to the award of contracts by entities which are included in Annex 2, above a threshold of \$6 500 000 for works contracts, and above the Code threshold (which is currently \$176 000) for goods and other services contracts. In the award of such contracts the USA shall afford to the suppliers, contractors and service providers of the EEC and to goods and services originating within the customs territory of the EEC, the award procedures of the Federal Acquisition Regulations, other than those pertaining to the application of the Buy America Act.

3. Each Party may maintain its current derogations under the Code.

Article 3 Electrical Utilities

1. The EEC shall extend the benefits of the provisions of Council Directive 90/531/EEC to US products, suppliers and contractors in the award of contracts by entities included in Annex 3 and will make the benefits of Council Directive 92/13/EEC available to US suppliers and contractors for such awards.
2. The USA shall waive the application of the Buy America Act (41 U.S.C. 10a) to the award of contracts by entities which are included in Annex 4, above a threshold of \$6 500 000 for works contracts, and \$450 000 for goods contracts. In the award of such contracts the USA shall afford to the suppliers, contractors and service providers of the EEC and to goods and services originating within the customs territory of the EEC, award procedures substantially equivalent to the Federal Acquisition Regulations, other than those pertaining to the application of the Buy America Act.

Article 4 Joint Study

The USA and the EEC shall jointly sponsor a study of the procurement opportunities that would arise from their respective offers and requests in the negotiations for the expanded Code. The study, the terms of reference of which are attached at Annex 7, will be conducted by an independent consultant and should be completed by 31 January 1994.

Article 5 Continuation of negotiations

1. Following completion of the study, the USA and the EEC shall negotiate with a view to reaching a balanced, comprehensive, agreement on procurement, with a high level of coverage in Code categories A, B and C, and a self-contained agreement on telecommunications procurement.
2. The comprehensive agreement on procurement is intended to be integrated, through multilateral negotiations, into an expanded Code. However, in the event that a satisfactory expanded Code cannot be achieved in time, the Parties intend to conclude a bilateral agreement on procurement, containing the elements described in paragraph 1.

Article 6 Final entity lists

The United States Government and the Commission of the European Communities shall immediately start the consultations necessary (including with other branches and levels of government) to enable each Party:

- promptly upon the completion of the study, to present entity lists that would permit the Parties to achieve a balanced agreement at a high level of coverage in Code categories A, B and C;
- to incorporate within those lists, for the USA, state, municipal and other sub-federal entities that have committed to accept obligations in respect of their procurement; and for the EEC, regional, local and other sub-central entities.

Article 7 Final provisions

1. This Agreement shall enter into force on signature except that, for the procurement of services ("other services" in the sense of Article 1(2)), it shall not enter into force before 1 July 1993.
2. If signature does not take place by 30 May 1993, the Parties shall consult with a view to ensuring entry into force at the earliest possible date.
3. This Agreement shall terminate on the earlier of 30 May 1995, or the entry into force of an expanded Code; provided, however, that either Party may terminate this Agreement on 30 May 1994 by notice given to the other Party, at least 30 days prior to that date.
4. The benefits of this Agreement shall apply upon its entry into force. Furthermore, they shall apply to tenders issued during the validity of this Agreement.
5. The obligations undertaken by the Parties to this Agreement shall not prejudice either Party's position in the negotiation of the agreements referred to in paragraph 5.
6. Annexes 1 to 7 are an integral part of this Agreement.

Done in duplicate at [Brussels] this [] day of May in the year one thousand nine hundred and ninety three.

Western Area Power Administration
Southeastern Power Administration
Southwestern Power Administration
Alaska Power Administration.
- Annex 5 The list of services offered for coverage under the Code by the EEC, contained in GPR/Spec/71 of 14 August 1992 Annex 4.
- Annex 6 The list of services offered for the coverage under the Code by the USA, contained in GPR/Spec/65 of 14 August 1992 Annex 4.
- Annex 7 Mandate for the Joint Study
Objective
The objective of the study is to estimate the value and also to assess qualitatively the international bidding potential of procurement opportunities which would be likely to arise under the GPA, as a result of offers and requests of either party, at the time of its expected implementation in 1995. The study shall be without prejudice to either party's final offer.
The study should be conducted on the basis of a projection of available information on current performance, potential and trends. The effect of measures which are currently planned, or in course of execution, should be taken into account. The consultant should make a critical assessment of the validity of the data on which the projections are based and should draw attention to any data whose reliability

can not be verified. Any exemptions and qualifications which are proposed, including thresholds, should be taken into account. Where necessary, the consultant may make estimates. The consultant should take the views of both parties into account.

Results should be presented as far as possible on the basis of common definitions and methodologies and in such a way as to enable any subsequent offers to be evaluated.

Coverage

The study should cover procurement of goods and services, including public works, by:

- central (federal) government (Category A);
- Sub-central (State, regional and local) government (category B);
- Other entities, offered or requested by either party, excluding telecoms (category C).

Reports, timing and acceptance

The study should result in two reports:

- an intermediate report, setting out the issues to be examined, items in need of quantification, data availability and proposed methodology;
- a final report setting out the results of the study.

The draft intermediate report should be presented not later than two months from commencement of the study. The final report should be commenced only if both parties are satisfied, on the basis of the intermediate report, that completion of the study would yield useful results.

The draft final report should be presented not later than 4 months from acceptance of the intermediate report.

Draft reports shall be considered final only after they have been accepted by both parties.

Dear Vice President Brittan:

In the context of our Memorandum of Understanding of May __, 1993 (MOU), I would like to describe to you the process the U.S. Trade Representative's Office will undertake in accordance with Article 6 of the MOU between now and January 31, 1994 to seek the voluntary commitment of U.S. subfederal entities to be included in the final entity lists.

As we agreed, the immediate bilateral commitments to open our respective procurement markets contained in the MOU are a "downpayment" towards a final procurement agreement. The inclusion of subfederal entities in the U.S. offer can only be accomplished after the results of our jointly-commissioned study are known. On this basis, we will be prepared to conclude a balanced comprehensive agreement on procurement.

To this end, I will immediately initiate the following actions with regard to subfederal procurement:

- 1) urge the 33 states from which we have already received preliminary commitments to provide final voluntary commitments; and
- 2) press ahead with work to obtain voluntary commitments from:
 - (a) the 17 states from which we currently have no commitment; and
 - (b) major municipalities, defined as cities with populations exceeding 500,000 and other subfederal entities operating in or serving those municipalities.

We will work with a view to obtaining final commitments in order to be in a position to submit our entity lists in time, so that the final phase of negotiations can start in January 1994. Any commitments by subfederal entities will be bound in legislation implementing a final procurement agreement.

In addition, during this period, the U.S. will consider ways in which, as part of a balanced agreement, federally-mandated measures affecting subfederal procurements would be removed in a timely manner. In the context of balanced agreement, both sides would oppose the enactment of legislation that would render ineffective the bidding opportunities provided by that agreement.

Sincerely,

Ambassador Michael Kantor
U.S. Trade Representative
