Subject: Excise Duty Tables - REF 1.001 - Post scriptum

PS/Page 44 - Revenues - Mineral Oils - footnote - Sweden figure (year 1996) perhaps not correct. To be confirmed next week./DS

Austria page 9 = 2000 OS = 145,06 euro (sparkling wine)

pain page 20 = 67352 PTA = 404,46 euro (leaded petrol)

think that was all.

please do not hesitate to tell me if anything seems to be abnormal. It is a rather complicated task to obtain a perfect result.

wish you all a happy 1 May and for all Scandinavians* - Trevlig Valborg!
love Mogensen

INTRODUCTORY NOTE

In collaboration with the Member States, the European Commission has established the "EXCISE DUTY TABLES" showing rates in force in the Member States of the European Union .

This publication aims to provide up-to-date information on Member States main excise duty rates as they apply to typical products.

It is intended that Member States will regularly communicate to the Commission all modifications of the rates covered by this publication and that revised editions of the tables will be published at regular intervals.

To this end, it is vital that all changes to duty structures or rates are advised by Member States to the Commission as soon as possible so that they may be incorporated in the tables with the least possible delay. All details should be sent to Mrs Tove Mogensen:
