Proposal for a

COUNCIL REGULATION (EC)

allocating, for 1998, catch quotas between Member States
for vessels fishing in Lithuanian waters

(presented by the Commission)

EXPLANATORY MEMORANDUM

Consultations between the Community and Lithuania took place in Brussels from 15 to 16 October 1997 and resulted in an Agreed Record of Conclusions defining a reciprocal fisheries arrangement for 1998.

These consultations were held on the basis of the new Agreement on Fisheries Relations between the European Community and the Republic of Lithuania, signed in Brussels on 20 December 1996.

The fisheries arrangement for 1998 provides, *inter alia*, for certain catch quotas for Community vessels in the Lithuanian fishing zone in the framework of the exchange of fishing possibilities and reciprocal access quotas.

The purpose of this proposal for a regulation is to allocate among Member States the quotas available in 1998 to Community vessels fishing in the Lithuanian zone under the above mentioned arrangement.

As a consequence of the Act of Accession of Austria, Finland and Sweden to the European Union, in particular Article 121, paragraph 1, footnote 9 of the table, Member States of the Community, as constituted before enlargement, have been compensated for their lower share of the cod stock up to the level required by the Council Declaration.

Lithuania is compensated for the quotas obtained in its waters by way of a financial contribution of ECU 563,510, in accordance with Article 4 of the Agreement on Fisheries Relations between the European Community and the Republic of Lithuania.

Proposal for a

COUNCIL REGULATION (EC) No/98

of December 1997

allocating, for 1998, catch quotas between Member States
for vessels fishing in Lithuanian waters

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 3760/92 of 20 December 1992 establishing a Community system for fisheries and aquaculture⁽¹⁾, and in particular Article 8 (4) thereof,

Having regard to the proposal from the Commission,

Whereas, in the course of these consultations, the delegations agreed to recommend to their respective authorities that certain catch quotas for 1998 should be fixed for the vessels of the other Party;

Whereas the necessary measures should be taken to implement, for 1998, the results of the consultations held with Lithuania;

Whereas to ensure efficient management of the catch possibilities available in Lithuanian waters, the quotas should be allocated among the Member States in accordance with Article 8 of Regulation (EEC) No 3760/92;

Whereas the fishing activities covered by this Regulation are subject to the control measures provided for by Council Regulation (EEC) No 2847/93 of 12 October 1993 establishing a control system applicable to the common fisheries policy⁽³⁾;

Whereas additional conditions for the year-to-year management of TACs and quotas, in accordance with the provisions laid down in Article 2 of Council Regulation (EC) No 847/96⁽⁴⁾, were not agreed with Lithuania;

Whereas, for imperative reasons of common interest, this Regulation will apply from 1 January 1998;

8. ANTI-FRAUD PROVISIONS:

The financial contribution granted by the Community is utilised by Lithuania to develop its fisheries sector in accordance with Article 4 of the Agreement. The amount is administered by the Ministry of Agriculture and Forestry of the Republic of Lithuania.

9. ELEMENTS OF COST/BENEFIT ANALYSIS:

The Community fleet in the Baltic Sea has been severely hit by reductions in catch possibilities, mainly due to biological factors (low salinity of the water and the M-74 disease) and pollution of the water. Any increase in fishing possibilities above current critical catch levels will contribute towards preventing the fleet, and connected industries and services ashore, from collapsing and disappearing. This will also avoid, to a certain extent, payments under lay-up schemes or social programmes.

Experience has taught us that the financial compensation, similar to that paid in 1997, has mainly been used by Lithuania for the continued improvement of scientific research on fisheries and the training of fisheries managers. This has entailed improved scientific assessment and enforcement in the fishery zone of Lithuania and has contributed to a more rational exploitation of the stocks, to the benefit of all concerned in the Baltic Sea.

The expenses proposed are foreseen in the budgetary planning for the period concerned.

10. ADMINISTRATIVE EXPENSES:

The proposal does not require new Commission staff or additional administrative costs.
