AMENDMENT TO THE PROPOSAL FOR A COUNCIL REGULATION (EEC)  
LAYING DOWN FOR 1978 MEASURES FOR CONSERVATION AND MANAGEMENT  
OF FISHERY RESOURCES BY THE ESTABLISHMENT OF QUOTAS.

---

(submitted to the Council by the Commission pursuant  
to the second paragraph of Article 149 of the EEC Treaty)

COM (78) 493 final

## EXPLANATORY MEMORANDUM

The present proposal for a regulation, submitted in conformity with Article 149 paragraph 2 of the EEC Treaty, modifies the amended proposal for a Council regulation of 15 June, 1978 (1), to take into account :

on the one hand, the latest scientific assessments upon conservation measures to be applied to mackerel stocks in the West of Scotland, Irish Sea, Bristol Channel, West and South Ireland, English Channel and Bay of Biscay (ICES Zones VI, VII and VIII), which recommend an increase in the TAC to 450,000 tonnes.

The adjustment of Member States catches involved has been made following the consultations which ended on 4 August between the Community, Norway, and the Faroe Islands, at which the delegations concerned agreed to recommend to their respective authorities a new allocation of the quantities to be fished;

on the other hand, the adjustment of Member States catches involved has been made, for ICES Zones III a North and IV (Skagerrak and North Sea), following the consultations which ended on 12 September between the Community and Sweden.

In addition, certain adaptations or amendments of a technical nature have been made.
