

COMMISSION OF THE EUROPEAN COMMUNITIES

COM(79) 600 final

Brussels, 25th October 1979

COMMUNICATION FROM THE COMMISSION TO THE COUNCIL
CONCERNING THE ESTABLISHMENT FOR 1979 OF THE TOTAL
ALLOWABLE CATCH (TAC) FOR CERTAIN FISH STOCKS
EXISTING WITHIN THE COMMUNITY FISHERIES ZONE

COM(79) 600 final

Communication from the Commission to the Council concerning
the establishment for 1979 of the total allowable catch (TAC)
for certain fish stocks existing within the Community fisheries
zone.

Further to its Communications to the Council of 23 November, 1978 and 16 February, 1979 (1), the Commission is submitting, as an annex, for examination by the Council, revised TAC figures as recommended by ICES on 11 July, 1979 and confirmed by the Scientific and Technical Committee on Fisheries at its meeting from 15 to 17 October 1979. The TAC figures in question concern the stocks of cod and whiting in the North Sea (ICES IV) as well as anchovies in ICES division VIII. The Commission considers that on the basis of the results of the consultations held in the context of the reciprocal fishing agreements negotiated by the Community with non-member countries, the new TACs recommended for these stocks could be envisaged for the Community fisheries zone.

(1) COM(78) 669 final
COM(79) 72 final

ANNEX

TACs by stock and by sector envisaged for 1979.

Corrigendum to the Annexes of Communications from the Commission to the Council COM(78) 669 final and COM(79) 72 final.

Species	ICES Division or ICNAF Zone	TAC 1979 (in tonnes)
