Mit der monatlich erscheinenden Veröffentlichung *Eurostatistik - Daten zur Konjunkturanalyse* werden innerhalb kürzester Frist die neuesten statistischen Daten über die Europäische Gemeinschaft als Ganzes (EUR 12), über jedes Mitgliedsland sowie über die Vereinigten Staaten und Japan bekanntgegeben.

*Eurostatistik* enthält nicht die Gesamtheit des bei Eurostat verfügbaren statistischen Materials, sondern eine Auswahl der relevantesten Reihen über die konjunkturelle Entwicklung.

Schnelligkeit und Pünktlichkeit sind die wichtigsten Vorzüge dieser Veröffentlichung.

Aus diesem Grunde wurde sie im Umfang bewußt klein gehalten und enthält keine Anmerkungen zur Methodik, die im übrigen in den spezialisierten Veröffentlichungen von Eurostat zu finden sind.

*Eurostatistik - Daten zur Konjunkturanalyse* enthält künftig keine Kommentare mehr. Dafür werden die wichtigsten Indikatoren jetzt in der monatlichen Veröffentlichung *Schlüsselzahlen - Bulletin zur europäischen Konjunktur* kommentiert. Außerdem wird Eurostat einen vierteljährlich erscheinenden Ergänzungsband *Indikatoren der Europäischen Union* veröffentlichen, der in kommentierter Form die wesentlichen wirtschaftlichen, monetären und sozialen Indikatoren der 15 Mitgliedsländer der Europäischen Union enthält.

Die in allen drei Publikationen veröffentlichten Daten stammen aus der Datenbank New Cronos. New Cronos setzt sich zusammen aus dem alten Cronos sowie REGIO und ist nicht mehr in Form von Zeitreihen, sondern in Form von multidimensionalen Tabellen dargestellt. New Cronos ist somit eines der Produkte zur Verbreitung statistischer Daten, das direkt aus der Eurostat - Referenzdatenbank gespeist wird. Darüber hinaus sind die Daten in der Datenbank Eurocron verfügbar, die vom Host Eurobases der Kommission angeboten wird.

*Eurostatistics - data for short-term economic analysis* is a monthly publication aimed at providing, as rapidly as possible, the latest statistical data on the European Community as a whole (EUR 12), each Member State, the United States and Japan.

*Eurostatistics* does not present all the statistics held by Eurostat, but a selection of the most relevant series on the economic situation.

Speed of publication and punctuality are the main features of this publication; that is why it is deliberately streamlined and does not contain any methodological notes, which are given in Eurostat's specialized publications.

*Eurostatistics - Data for short-term economic analysis* will not include comments anymore. For this, *Key Figures - bulletin of economic trends* will now comment on the most important indicators. Moreover, Eurostat will launch a quarterly supplement *Indicators of the European Union*, to present and comment on main economic, monetary and social indicators of the 15 Member States.

The data presented in all three publications are taken from Eurostat's on-line database, New Cronos. New Cronos includes old Cronos and Regio, both represented not by chronological series but through multi-dimensional tables. New Cronos is a dissemination product directly from Eurostat's Reference Environment. The data are also available via the Commission host Eurobases in the Eurocron database.

*Eurostatistiques - Données pour l'analyse de la conjoncture* est une publication mensuelle qui a pour but de fournir dans les meilleurs délais les données statistiques les plus récentes pour la Communauté européenne en tant qu'ensemble (EUR12), pour les pays membres ainsi que pour leurs principaux partenaires extra-communautaires (États-Unis d'Amérique et Japon).

*Eurostatistiques* ne publie pas d'une manière exhaustive toutes les statistiques disponibles auprès d'Eurostat, mais les plus importantes parmi celles-ci.

Cette publication se veut rapide et facilement maniable. Pour cette raison, elle ne comporte pas de notes méthodologiques, qui sont par ailleurs disponibles dans les publications spécialisées d'Eurostat.

*Eurostatistiques - Données pour l'analyse de la conjoncture* ne comprend plus de commentaires. Par contre, les indicateurs les plus importants sont maintenant commentés dans le mensuel *Chiffres Clés - Bulletin de la conjoncture européenne*. De plus, Eurostat publiera un complément trimestriel *Indicateurs de l'Union Européenne* qui présentera - en les commentant - les principaux indicateurs économiques, monétaires et sociaux pour les quinze Etats membres de l'Union Européenne.

Les données présentées dans les trois publications proviennent de la base de données New Cronos. New Cronos se compose de l'ancien Cronos et de Regio, représentés non plus sous forme de séries chronologiques mais de tableaux multidimensionnels. New Cronos constitue en fait un des produits de diffusion émanant directement de l'environnement de Référence. Ces données sont aussi disponibles dans la base de données Eurocron, accessible par l'intermédiaire du serveur Eurobases de la Commission.
